Doctoral Program In Clinical Sexology

Mission of the Institution

International Institute of Clinical Sexology (IICS) is a private, for-profit, educational institute that offers a Ph.D. in Clinical Sexology to licensed and license-eligible professionals in the healthcare field who intend to practice Sex Therapy, Consulting or Coaching, or provide Sex Education as an adjunctive service to their clinical specialty.

The Clinical Sexology program is designed to provide a curriculum that will prepare clinicians to work with a wide array of sexual concerns in a variety of treatment settings.

Legal Control IICS

International Institute of Clinical Sexology Inc.

Dr. Carol Clark is the President

9620 NE 2nd Avenue, Suite 207
Miami Shores, Fl. 33138

Licensure Status

Licensed by the Commission for Independent Education, Florida Department of Education. Additional information regarding IICS may be obtained by contacting the Commission for Independent Education, Department of Education, 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399-0400, toll-free telephone number (888)224-6684.

IICS IS NOT ACCREDITED BY ANY ACCREDITING AGENCY(S) OR ASSOCIATION(S) RECOGNIZED BY THE UNITED STATES DEPARTMENT OF EDUCATION AS AN APPROVED ACCREDITING AGENCY. THEREFORE, IF YOU ENROLL IN THIS INSTITUTION, YOU WILL NOT BE ELIGIBLE FOR TITLE IV FEDERAL FINANCIAL ASSISTANCE OR STATE STUDENT FINANCIAL ASSISTANCE. IN ADDITION, CREDITS EARNED AT THIS INSTITUTION MAY NOT BE ACCEPTED FOR TRANSFER TO ANOTHER INSTITUTION AND MAY NOT BE RECOGNIZED BY EMPLOYERS, EXCEPT ON AN INDIVIDUAL BASIS AS DETERMINED BY THE INSTITUTION OR EMPLOYER.

Therapist Certification Association

Graduates of IICS will be eligible for certification as Sex Therapists, Clinical Sexologists, or Human Sexuality Professionals through the Therapist Certification Association.

Faculty and Board Members

**Dr. Carol Clark, IICS Owner,
President, Administrator and
Program Director**

Dr. Carol Clark graduated from Trenton State College in 1990 with a Master's degree in Counseling. She moved to Miami and, after attaining her license, became a Certified Addictions Professional. She then attended the American Academy of Clinical Sexologists and the Institute for Advanced Study of Human Sexuality, thereby earning a doctoral degree and the right to the title of Sex Therapist.

Dr. Clark is a Diplomate of the American Board of Sexology and an AASECT and TCA Certified Sex Therapist, education provider, and supervisor. She was an adjunct professor for the Master's Program at Carlos Albizu University from 1999-2016. In 2009, she opened the Sex Therapy Training Institute. She is also the owner and director of the Addictions Therapy Training Institute (ATTI) and the President of the Therapist Certification Association. She launched IICS in 2016. She is the author of *Addict America: The Lost Connection* and *My Pocket Therapist: 12 Tools for Living in Connection*.

**IICS Dean of Students
IICS Advisory Board**

Dr. Maylin Batista has been in practice for over 10 years. After earning her graduate degree from Carlos Albizu University in 2002, she went on to complete a Ph.D. in Clinical Sexology with the American Academy of Clinical Sexology. She has a practice in Miami Lakes where her focus is relationship issues, substance abuse and sex therapy. She is a Board member and instructor for the Therapist Certification Association. Dr. Batista is a certified trainer in Neuro-Linguistic Programming and Hypnotherapy. She completed the Addictions Therapy Training Institute program in 2013.

**IICS Compliance Officer
IICS Advisory Board**

Dr. Tracy A. Rodriguez-Miller is a Licensed Clinical Social Worker in the state of Florida, as well as Georgia, a Board Certified Clinical Sexologist, Diplomate of the American Board of Sexology, Certified Addiction Professional, Certified Hypnotherapist and a Florida Board approved Qualified Clinical Supervisor. She has over 17 years of experience in the behavioral health field promoting personal strengths and insight with the use of empowerment to assist clients in addressing challenging issues and making positive life choices and changes.

Dr. Rodriguez-Miller maintains a private practice specializing in trauma, sex therapy and addictions with a focus on male survivors of childhood sexual trauma. She also is an Adjunct Professor at Miami Dade College and provides clinical supervision for Social Worker Interns seeking licensure. She earned her Master's degree in Social Work and Bachelor's in Psychology from Florida International University. She then attended the American Academy of Clinical Sexologists (AACS) where she earned a Doctorate in Clinical Sexology.

**IICS Advisory Board
IICS Student Advisor**

Dr. An Goldbauer is a graduate of IICS and ITCA. He is a board-certified clinical sexologist, an RN, and a radio host for The Umbrella Hour, a program that he shares with another trans man covering everything about health under the Rainbow Umbrella.

**IRB Committee Chair
IICS Advisory Board
Research Chair**

Dr. Janis Roszler, LMFT, CDCES, is a board-certified sex therapist, licensed marriage and family therapist, certified clinical supervisor, licensed dietitian/nutritionist, and the 2008-2009 diabetes educator of the year (AADE). Her books include *Intimacy & Diabetes*, *Sex and Diabetes*, *Approaches to Behavior*, *Diabetes on Your OWN Terms*, and *The Secrets of Living and Loving with Diabetes*. Her articles and medical chapters have been published in textbooks, magazines, and peer-reviewed journals. She is the former host of *Janis' Jump Start to Good Health* and *dLife* radio shows and authored the popular *Dear Janis* advice column that was featured throughout the U.S., China and Dubai.

**Sex Offender Therapy
Instructor**

Dr. April Young graduated from Troy University in 2013 with a Master's degree in Counseling and Psychology during her tenure as a law enforcement officer with the Putnam County Sheriff's Office. While at the Sheriff's Office, she worked with sexual predators and offenders as a Detective from 2009 to 2013. Upon leaving the Sheriff's Office, she continued her work with sexual offenders from a therapeutic perspective. In 2013, Mrs. Young began working with juvenile sexual offenders as a contracted therapist for court-ordered youth. In 2015, she continued her work as a Licensed Mental Health Counselor with a certification in the treatment of sexual offenders from the Association of Forensic Counselors. April is considered an expert witness in the Juvenile Courts in several districts in Florida. She is also a clinical member of the Association for the Treatment of Sexual Abusers.

IITES Instructor

Dr. Yazmine Marimon is a psychotherapist and a licensed mental health counselor with more than ten years of experience specializing in sexual dysfunctions, sexual intimacy, relationships, couples, trauma, and addiction. She earned her Masters in Mental Health Counseling from Nova Southeastern University, Florida, and her Bachelors in Psychology from Havana University, Cuba. She is a Certified Sex Therapist and Certified Addiction Professional (CAP). She has created the Instituto Internacional de Terapia y Educación Sexual (IITES). It is a space for academic training in the area of sexology for health and education professionals in Spanish.

Sexuality and Disabilities Instructor

Lourdes E. Rios is a Registered Nurse, Licensed Mental Health Counselor, and Board Certified Sex Therapist. I have worked in the medical field for over twenty-five years in different capacities that range from bedside nursing, to leadership, and Case management. During my time as a counselor, I have worked in the field of Cognitive and Emotional Wellness with Trauma, Anxiety, Addictions, Relationship Issues, Women's Issues, Men's Issues, Parenting Problems and Difficulties, Divorce, and Sexuality. Currently, I'm a Doctoral Candidate in Sexology at IICS.

Sexuality and Disabilities Instructor

Cheryl Cohen-Greene is a Certified Clinical Sexologist, with a doctorate in Human Sexuality, a 20-year member of the San Francisco Sex Information Training Staff, and has been a surrogate partner for over 49 years. She believes that, for most of us, our Sexuality is a very important part of our lives throughout our entire lives. Consensual sexual intimacy, in whatever form works for each of us, contributes to our overall health. As we age so does our Sexuality. It will change in different ways for each of us due to aging, illness, injury, surgery, medication, and the loss of a long-time partner due to death or separation. Many of us have been taught by our culture etc. that older folks, (60 and older) don't / shouldn't have sex. And that's simply not true. In my work as a Surrogate Partner Therapist, I help assist individuals and couples who desire to enhance their concept of their sexuality as their bodies age and change. We all need some help making our desires and needs met through better sexual communication, relaxation, and touch.

**Sexuality and Disabilities
Instructor**

Isabel Perez is a licensed school psychologist, licensed mental health counselor, master addiction professional, board-certified neuropsychologist, and heart-centered hypnotherapist currently completing her PhD in Sex Therapy with a specialization in addiction. She has been serving in Miami-Dade County since 1996 with a focus on concussion, traumatic brain injury, and neurological disorders.

Administrative staff

Niki Koenig
Executive Assistant
IICSPHD@gmail.com

Niki has been instrumental in the creation of IICS and the approval process for IICS to be licensed by the CIE.

Elizabeth St. Aubin
Administrative Assistant

Liz monitors the day-to-day activities of the administrative office and keeps everyone on task.

Erika Wilder
Administrative Assistant

Erika takes on a variety of tasks to help keep things running smoothly.

Purpose of the Institution

“Sexology” is the study of sex or of the interaction of the sexes, especially among human beings. “Clinical” is relating to or based on work done with real patients. Therefore, the objective of this program is to educate and prepare healthcare providers with the knowledge and skills needed to incorporate Clinical Sexology into their practices. “Healthcare” encompasses the fields of psychotherapy, psychology, medicine, ministerial service, education, coaching, and other human service professions.

The program is comprised of three components: Clinical Sexology Education, a choice of one of four Specialty Concentrations, and a dissertation or doctoral project.

Admission Requirements

The IICS application may be downloaded from the website or requested via email. The student will submit the completed application with a driver’s license, curriculum vitae, and copy of professional license or certification.

The applicant’s graduate degree or professional license or certification must be in a healthcare service, medical, or mental health field from an accredited college or university prior to enrollment. The Admissions Committee considers all applicants for admission on the basis of their academic record, personal and professional accomplishments, motivation, talents, recommendations, personal statement, and test results, as applicable.

All applications will be initially reviewed by the Committee and a recommendation for acceptance or denial made. When approved, the applicant will respond to interview questions regarding past training, clinical experience, how the degree will be used, and any other information relevant to the applicant’s ability to successfully complete the program. If any Committee member deems an applicant unacceptable, they will submit their rationale in writing and a meeting will be called for discussion and recommendations. The applicant will be notified in writing within thirty (30) days of the application as to their acceptance. If the Committee decides that an applicant is unacceptable but the reason is correctable, the applicant will be given the opportunity to correct their application and resubmit. If it is decided that the applicant is unacceptable or not likely to successfully complete the program, the applicant will be informed in writing and able to reapply in a year provided the reasons for non-acceptance are reversible.

All required application materials, including official graduate transcripts and 2 letters of recommendation must be submitted to the Office of Admissions prior to starting classes. All documents become the sole property of the International Institute of Clinical Sexology (IICS) and cannot be forwarded to another institution or returned to the applicant.

IICS's method of assessing a student’s ability to successfully complete the course of study for which he or she has applied will be based on the following:

1. A non-refundable application processing fee of \$100 US currency (credit cards, money orders, treasurer or bank checks made payable to the International Institute of Clinical Sexology). The application fee is waived for Sex Therapy Training Institute alumni.
2. Current driver's license
3. Curriculum vitae
4. One of the following must be presented:
 - a. Professional license or certification. The professional license or certification must be in a healthcare service, medical, or mental health field from the relevant state or jurisdiction. A Master's degree must be necessary to hold the license or certification.OR
 - b. Official transcript indicating proof of a Bachelor's degree and transcripts or certificates confirming sixty (60) graduate level credits in a healthcare field.
5. Completion of the Student Interview form.

Upon Acceptance

Upon submission of the initial application and acceptance into the program, IICS will further assess a student's ability to successfully complete the course of study by reviewing the following documents, which will need to be received before beginning classes:

1. Completed Enrollment Agreement
2. Verification (official transcript) of an earned Master's Degree from a College or University accredited by an agency recognized by the U.S. Department of Education or equivalent from country in which the student practices OR official transcript indicating proof of a Bachelor's degree and transcripts or certificates confirming sixty (60) graduate level credits in a healthcare field.
3. Verification of cumulative grade point average of 3.0 or better in previous graduate studies
4. Two letters of recommendation from persons of a Ph.D. level, Ed.D., Psy.D., M.D., D.O. or other professional able to speak to the applicant's ability to successfully complete doctoral level research. Preferably these should come from current and/or formal employers, current and/or previous faculty and/or advisors;
5. An interview with Admissions Personnel

International students may be required to take the Test of English as a Foreign Language (TOEFL) and earn a minimum score of 500.

Upon acceptance, Dr. An Goldbauer, the , will contact the student and schedule an orientation to the program. This will include an overview of the program requirements, instructions on attending webinars, and instructions of accessing all course materials.

Admissions Committee

Dr. Carol Clark is the sole member of the Admissions Committee.

Transferability of Credits

Units or credits applied toward the award of the IICS Ph.D. may be derived from the following:

Units or credits may be earned at and transferred from other postsecondary institutions, when congruent and applicable to the IICS program and when validated and confirmed by IICS. Such institutions include, but are not limited to, colleges and universities, institutions approved to offer post-graduate continuing education in sex therapy and sexology, or institutions approved to offer post-graduate continuing education in one of the IICS specialty areas. Coursework must be comparable to the IICS curriculum. All credits will be reviewed by the Admissions Committee and approved or rejected in part or in total. Credits from a graduate-level program are not transferable.

The maximum amount of transferable credits accepted from other institutions may not exceed twenty-four (24) credits.

Units or credits obtained from a Therapist Certification Association (TCA) institution may not exceed forty-eight (48) credits. These institutions include the following: The Sex Therapy Training Institute and the Addictions Therapy Training Institute.

Credits obtained from the International Institute of Trauma and Addictions Professionals (IITAP) may be applied to the specialty concentration. Students will be given tuition credit. They will need to attend all Behavioral and Substance Addiction classes, including the Qualified Supervisor classes, but will not need to complete the homework.

Transferability of IICS credit **to** another institution is at the discretion of the accepting institution, and it is the student's responsibility to confirm whether or not credits will be accepted by another institution of the student's choice. IICS has no written articulation agreements with other institutions.

Program Description

Clinical Sexology is the interdisciplinary study of human sexuality, integrating research findings of human sexual behavior with the diagnosis and treatment of sexual concerns and dysfunctions. The Clinical Sexology program is dedicated to preparing licensed, registered, or certified, psychotherapists, psychologists, other health care providers, or educators to provide clinical sexology as an addendum to their existing clinical or educational practice. The program does not prepare unlicensed students to meet initial licensing requirements in any field.

This program is structured in three components: Clinical Sexology education, Specialty Concentration education, and Dissertation or Doctoral Project.

The **Clinical Sexology** education consists of fifty-four (57) credits and can be completed in twelve (12) months. Enrollment is prior to the beginning of each quarter.

Educational Programs and Curricula

The classes comprised in these curricula encompass considerable variety in the field of sexology, including the diagnosis and treatment of sexual dysfunctions, sexual abuse, gender dysphoria, and sex offending. Students will also gain in-depth knowledge of developmental sexuality, legal and ethical issues related to sex therapy, socio-cultural factors in sexuality, medical factors affecting sexual functioning, and alternative lifestyles.

These classes are offered in a choice of two scheduling tracks. Track 1 classes are offered on Saturdays from 9:00 am to 3:00 pm EST. Track 2 classes are held on alternate months for five days – Thursday through Monday – from 9:00 am to 3:00 pm EST. Both tracks will take one year to complete. Classes consist of didactic instruction incorporating PowerPoint presentations, videos, guest speakers who are experts in a particular subject, and panels of people who have experience with the issue being taught; for instance, transgender people speak about their experiences and answer questions from the students. All classes are offered simultaneously in person and via live webinar. Electives may be offered on days outside of the regular tracks. In addition to completing the 15 required core courses, students must take four (6) electives of their choice.

In addition to live class time, students will read the required texts, read a selection of the recommended readings, view additional educational videos that are provided by IICS and accessible on Google Drive*, and complete other homework assignments as assigned by the instructor.

Upon completion of each course module (usually two classes), students will complete an evaluation form and complete the take-home written exam. The professor responsible for that course will grade the quizzes with a pass/fail. Students who do not pass will need to re-take the class.

The Clinical Sexology component includes Clinical Supervision in the form of Case Consultation, as all students are licensed or certified in their respective fields. Case Consultation is offered in group format on Saturdays from 3:00 pm – 4:00 pm EST following class or on other scheduled days and times. Case studies are also incorporated into the class time. Students are required to participate in 20 group sessions and present their own cases at least once. Group sessions will have no more than six (6) students. Students must also schedule 10 hours of individual or paired Supervision/Case Consultation with an approved Supervisor. They will present cases from their own case files and also from the bank of cases provided by IICS and accessible on Google Drive*. This will teach the students how to treat a wide variety of cases from the field of sexology. Case Consultation will require the presentation of cases using the Case Supervision Form provided so students will learn how to professionally present a case and cover all aspects of a case. All paired Case Consultation takes place via webinar. Students can attend group supervision in person or via webinar.

Upon completion of the Clinical Sexology component, students will take an oral exam. They will be given a set of cases from which to study and prepare, using the Case Supervision Form format, and will then be randomly assigned one of those cases to present at the time of the exam. Three (3) faculty members will comprise the IICS Examination Committee. The student will answer questions relating to each content area and be graded by each committee member on ability to treat content-relevant cases. The committee will evaluate the student according to specified criteria. The grade will be based on the average of the three evaluations. Students must pass with “Able to treat complex cases.” If not able to demonstrate this, they will need remedial work and to re-take the exam with a new set of cases.

The **Specialty Concentration** education consists of twenty (20) credits and the completion time varies according to specialty, as they each have their own scheduling times. Students will choose one specialty from the available options when they enroll in the program. Scheduling is as follows: The Behavioral and Substance Addiction classes meet one Friday per month. The Hypnotherapy and Sexuality classes meet for two five-day segments on alternate months. The Kink Aware Therapy classes meet for 2 months each for 5 consecutive days totaling 10 classes. The Therapeutic Gender Training classes meet for 2 months each for 5 consecutive days totaling 10 classes and includes a Clinical Practicum that each student designs with the professor. The Sex Offender Therapist program meets one Monday per month for 10 months and has a supervision component. The Sexuality and Disabilities program meets for 2 months each for 5 consecutive days totaling 10 classes and includes an hour of supervision with each class. All classes are offered via webinar and some may be attended in person.

The Specialty Concentration may be taken concurrently with the Clinical Sexology education after 6 months of enrollment or after \$2,000 in tuition is paid.

All specialties may be attended via synchronous live webinars.

Each Specialty Concentration consists of didactic instruction utilizing a variety of teaching techniques as in the Clinical Sexology component. In some specialties, such as Hypnotherapy and Sexuality, students will practice techniques and video record for review by the instructor. Students will need to complete the required reading and are given a variety of homework assignments that are designed to give them the knowledge and experience to be experts in their fields. They are provided with the curriculum with descriptions of all requirements at the beginning of their program and the professors review these with the students and are available for further consultation if needed.

Students will have one additional year after completing their Clinical Sexology and Specialty Concentration in which to complete the **Dissertation or Doctoral Project**, which is worth twenty (20) credits.

Both the dissertation and the doctoral project require a significant literature review. The distinction between the two is that the dissertation will postulate a hypothesis, which the methodology and statistical analysis will support or not. A Doctoral Project will involve the design and implementation of an intervention for a sexual issue or concern, the need for which was suggested by the literature review.

Students will have the benefit of committee members who are experts in the particular field of interest. A committee chair will be chosen by the Dean of Students from the IICS faculty and the student will choose two committee members from their field of interest. The research may build on the Specialty Concentration the student studied or will have a sexology/sex therapy focus and will make an original contribution to the field of Sexology.

It is expected that as the students have completed Master's Degrees in a Healthcare-related field, they will have taken graduate level courses in Research Methodology and Statistics, and will have completed research in their graduate programs.

As part of the Dissertation/Doctoral Project portion of the program, IICS offers ancillary classes in Research Methodology and in Statistics. For those students who want or require additional guidance in completing a Dissertation/Doctoral Project, our Dissertation Coordinator offers tutorials and office hours to guide students.

Students will be provided with ideas for their Dissertation/Doctoral Project throughout their program and faculty will help them fine-tune their ideas and give guidance with methodology. This is in addition to the input of their committee members.

A total of ninety-seven (97) credits are required for completion of the entire program. Course descriptions are below.

*IICS uses Google Drive to store all the program literature, class recordings, handouts, curricula, educational videos, PowerPoints, instructional videos, supervision recordings, and individual student activity logs. These are all organized in folders and view-only access is given to students as to relevance to that student. For example, all students are given access to the IICS Student Room folder, which includes the Orientation document, catalogue, and more; but only students in the Behavioral and Substance Addiction specialty will have access to that folder. All students have access to the Group Supervision recordings, but the individual supervision recordings are available only to the student in that session. Students need to create a Gmail email address in order to access Google Drive.

Program Breakdown

PROGRAM BREAKDOWN BY COURSE				
Course Number	Course Title	Credit Hours	Pre-requisite	Instructor
Clinical Sexology Education				
CLS 701	Sexual and Reproductive Anatomy and Physiology	3		Dr. Clark
CLS 702	Developmental sexuality	3		Dr. Clark
CLS 703	Gender-identity	3		Dr. Clark
CLS 704	Socio-cultural factors in sexual values and behavior	3		Dr. Clark
CLS 705	Diagnosis of Sexual Dysfunctions and Disorders	3		Dr. Clark
CLS 706	Medical factors related to sexuality and sexual functioning	3		Dr. Clark, Dr.Sahly, Dr. Williams
CLS 707	Interaction between sexuality and dynamics of interpersonal and family relationships	3		Dr. Clark
CLS 708	Victims and Victimology	3		Dr. Clark
CLS 709	Research on Sexual Dysfunctions, and Disorders	3		Dr. Roszler, Dr. Clark
CLS 710	Sexual Offender Treatment	3		Dr. Clark
CLS 711	Legal Ethical and Forensic Issues in Sex Therapy	3		Dr. Clark, Stuart Leviton
CLS 712	Treatment of Sexual Dysfunctions and Disorders	3		Dr. Clark
CLS 713	Risk Assessment with Sex Offenders	3		Dr. Clark
CLS 714	Sexually Transmitted Infections	3		Dr. Clark, Dr. Luigi Ferrer
CLS 715	Sexual Abuse Treatment	3		Dr. Clark
	Total Core Class Credits	45		
CLS 716E	Sexual Pharmacology – Elective	1.5		Dr. Williams,Dr. Sahly
CLS 717E	Non-Monogamous Lifestyles - Elective	1.5		Ms. Gentillé

CLS 718E	Enhancing Intimacy and Passion - Elective	1.5		Dr. Rodriguez-Miller
CLS 719E	Sexuality and Disabilities - Elective	1.5		Rios and Perez
CLS 720E	Addiction 101- Elective	1.5		Dr. Carol Clark
CLS 721E	Sexuality and Substance Abuse - Elective	1.5		Dr. Rodriguez-Miller
CLS 722E	Pelvic Floor Physiology - Elective	1.5		Dr. Calista Powell
CLS 723E	Human Trafficking-Elective	1.5		Dr. An Goldbauer
CLS 724E	Divorce and Separation: Helping Students Cope Elective	1.5		Dr. Alyse November Stephanie Newberg
CLS 725E	Kink Aware Therapy	1.5		Michelle Holleman
	Total 6 Required Electives Credits	9		

CLS 801	Clinical Supervision /Case Consultation 30 hours	3	CLS 701- CLS 715	All Faculty

	Total Clinical Sexology Credits	57		
RES 901	Research Dissertation or Doctoral Project	20		Committee Members Chair: IICS Board Member

Specialty Concentrations

All students enrolled in the Clinical Sexuality Program are required to complete one specialty concentration. A concentration consists of eight courses and is offered in five different areas: Behavioral and Substance Addiction, Hypnotherapy and Sexuality, Therapeutic Gender Training, Kink Aware Therapy, Sexuality and Disabilities, and Sex Offender Therapy. The course content for each of the concentrations is as follows:

Behavioral and Substance Addiction				
BSA 701	Principles of Addiction and Treatment	2		Dr. Clark
BSA 702	Evaluation, Assessment & Co-occurring Disorders	2		Dr. Clark
BSA 703	Service Modalities & Models of Treatment	2		Dr. Clark
BSA 704	Family Systems & Co-Dependency	2		Dr. Clark
BSA 705 A	Treatment Planning and Relapse Prevention – Part A	2		Dr. Clark
BSA 705 B	Treatment Planning and Relapse Prevention-Part B	2		Dr. Clark
BSA 706 A	Medical, Mental Health, & Pharmacology Part A	2		Dr. Clark
BSA 706 B	Medical, Mental Health, & Pharmacology Part B	2		Dr. Clark
BSA 707	Ethical and Behavioral Standards	2		Dr. Clark
BSA 708	Cultural Diversity & Special Populations	2		Dr. Clark
	Total	20		

Hypnotherapy and Sexuality				
HYP 701	Principles of Hypnotherapy	2		Dr. Batista
HYP 702	Foundations of Hypnotherapy	2		Dr. Batista
HYP 703	Advanced Practice of Hypnotherapy 1	2		Dr. Batista
HYP 704	Advanced Practice of Hypnotherapy 2	2		Dr. Batista
HYP 705	Ethical Practice of Hypnotherapy	2		Dr. Batista
HYP 706	Sexual Dysfunction Treatment 1	2		Dr. Batista
HYP 707	Sexual Dysfunction Treatment 2	2		Dr. Batista

HYP 708	Clinical Application with Special Populations	6		Dr. Batista
	Total	20		

Therapeutic Gender Training				
TGT 701	Foundations of Gender Diversity	1		Dr. Clark
TGT 702	Gender Identity Development and Lifespan Considerations	1		Dr. Clark
TGT 703	Minority Stress and Mental Health	1		Dr. Clark
TGT 704	Gender-Affirming Therapeutic Approaches	1		Dr. Clark
TGT 705	Medical Aspects of Gender Transition	1		Dr. Clark
TGT 706	Supporting Youth and Families	1		Dr. Clark
TGT 707	Legal and Ethical Issues in Therapeutic Gender Training	1		Dr. Clark
TGT 708A	Working with Trans Masculine, Trans Feminine, and Nonbinary Clients	.5		Dr. Clark
TGT 708B	Advocacy, Allyship, and Systems Change	.5		Dr. Clark
TGT 709	Intersectionality and Cultural Competence	1		Dr. Clark
TGT 710	Remediation, Regret, Detransition	1		Dr. Clark
TGT 801	Clinical Practicum & Supervision	10	TGT 701-710	All
	Total	20		

Kink Aware Therapy Specialization				
KAT 701	Foundations and Principles of Kink and BDSM	2		Michelle Holleman
KAT 702	Myths and Misconceptions	2		Michelle Holleman
KAT 703	History of BDSM and Power Exchange Dynamics	2		Michelle Holleman
KAT 704	Legal and Ethical Practice	2		Michelle Holleman
KAT 705	Kink in Cultural Contexts	2		Michelle Holleman
KAT 706	Intersection of Kink, Addiction, & Sexual Dysfunctions	2		Michelle Holleman
KAT 707	Kink, Consent, and Abuse Dynamics	2		Michelle Holleman
KAT 708	Love, Kink, and Alternative Lifestyles	2		Michelle Holleman
KAT 709	Clinical Considerations and Biases	2		Michelle Holleman
KAT 710	Best Practices with Therapeutic Kink	2		Michelle Holleman
	Total	20		

Sex Offender Therapy Specialization				
SOT 701	Reproductive anatomy and sexual physiology	2		Dr. April Young
SOT 702	Developmental Sexuality	2		Dr. April Young

Course Descriptions

Clinical Sexology Education

CLS 701 - Sexual and Reproductive Anatomy and Physiology 3 Credits

Course content will include 1) exploration of cultural beliefs and messages about sex and the human body; 2) developing an understanding of how these impact optimal sexual functioning; 3) describing male and female reproductive processes (menstrual cycle, menopause, sperm production and ejaculation); 4) describing internal male organs and prostate problems; describing the role of hormones in male and female sexual behavior; 5) applying Masters and Johnson four-phase sexual response cycle and Kaplan's three-phase cycle of sexual response in a clinical setting.

CLS 702 - Developmental Sexuality 3 Credits

Course content will include 1) describing the process of psychosexual development and how individual patterns of sexual orientation and behavior develop through the interaction of biological, social, cultural, and psychological factors; 2) developing a practical understanding of sexuality in infancy, childhood, and adolescence, adult sexuality and relationships; 3) teaching students to provide sex education to children, adolescents, and adults according to their developmental status.

CLS 703 - Gender Identity 3 Credits

This course will focus on 1) the gender identity spectrum; 2) the therapist's role in treating gender variant clients; 3) therapeutic needs of transitioning people throughout the lifespan; and 4) assisting family members and partners of transitioning people.

CLS 704 - Socio-Cultural Factors in Sexual Values and Behavior 3 Credits

This course explores sexuality from historical, religious, and cultural perspectives. It will focus on 1) Various cultural sexual practices, such as genital mutilation, polygamy, and castration; 2) The primary influences on sexuality in the Western World, originating from the Torah and the Bible; 3) Sexual diversity as it exists in various subcultures within the United States; and 4) how the media and the internet influence sexual attitudes and behavior.

CLS 705 - Diagnosis of Sexual Dysfunctions and Disorders 3 Credits

This course will define atypical sexual behavior in the context of culture, history, and the law. It will cover DSM diagnoses for sexual dysfunctions and paraphilias, differential diagnoses for sexual dysfunctions and how to distinguish as well as understand the causes. Students will learn how to define and diagnose sexual addiction, complete a diagnostic interview and be able to screen for medical causes of dysfunction.

CLS 706 - Medical Factors Related to Sexuality and Sexual Functioning **3 Credits**

This course will define the DSM sexual disorders with medical origins and focus on symptoms, factors increasing susceptibility, and prevention. Students will learn how major disabilities may affect sexual function and expression; coping and enhancement strategies for people with disabilities; how surgical procedures may affect a woman sexually, physically, and emotionally; hormone replacement therapy; the incidence of, symptoms of, and treatment alternatives for penile cancer, testicular cancer, prostatitis, benign prostate hyperplasia, and prostate cancer.

CLS 707 - Interaction between Sexuality & Dynamics of Interpersonal & Family Relationships **3 Credits**

This course will focus on 1) the various theories about love, attraction and attachment, i.e.: Sternberg, Lee, Gottman, et.al. and the brain chemistry of attraction; 2) how cultural and social influences determine and impact relationships and family structures; 3) strategies for communication and negotiation in relationships and how to implement therapeutic interventions with couples and families; 4) how sexual orientation, transgenderism, sex addiction, and alternative lifestyles impact family relationships; and 5) how sex becomes the presenting problem in relationships while hiding underlying issues, including lack of intimacy and/or control.

CLS 708 - Victims and Victimology **3 Credits**

This course will define the terms related to victims and victimology. Students will learn to recognize types of victims and issues specific to type. Content will include bias toward victims, victim-blaming, and issues between victims and the criminal justice system; it will also cover the process of restorative justice. Students will learn to utilize a variety of interventions appropriate to victim type.

CLS 709 - Research on Sexual Dysfunctions and Disorders **3 Credits**

This course will cover the advantages and disadvantages of the following research methods: case study, survey, direct observation, and experimentation. Students will become familiar with the major sex researchers and their contributions to the field, including Henry Havelock Ellis, Richard von Krafft-Ebing, Sigmund Freud, Theodore Hendrik van de Velde, Alfred Kinsey, Leah Schaefer, Masters and Johnson, Helen Singer Kaplan, National Health and Social Life Survey. Students will review recent research relating to sexual functioning and become familiar with the major research journals.

CLS 710 - Sexual Offender Treatment **3 Credits**

This course will focus on 1) defining the types of sex offenders as per the DSM 5; 2) defining the legal definitions related to sex offending; 3) recognizing the differing dynamics and underlying motives related to stranger rape, acquaintance rape, child molestation, incest, sexual harassment, sex addiction and paraphilias; 4) best treatment practice according to the type of offense, including cognitive-behavioral, trauma intervention, medical, and group therapy; 5) assessment and treatment of the family of a sex offender; and 6) developing and implementing a treatment plan for sex offenders under supervision.

CLS 711 - Legal, Ethical and Forensic Issues in Sex Therapy **3 Credits**

This course will review the Codes of Ethics of several organizations, including ATSA and AASECT. It will cover the basics of Ethical Decision Making and ethical questions related to specific areas, such as conversion therapy. Students will learn how therapists and psychologists come to violate the laws regarding sexual relationships with patients and be able to clearly differentiate between the therapist-

patient relationship and the forensic arena and understand the boundaries of each. The course will also focus on forensic assessment and testifying in court.

CLS 712 - Treatment of Sexual Dysfunctions and Disorders

3 Credits

This course will review the differing diagnoses and the underlying characteristics that will determine treatment. It will cover different treatment interventions based on nature of the disorder and dysfunction and students will learn to be able to effectively implement behavioral, cognitive, and trauma interventions according to individual cases. It will discuss how to incorporate risk reduction into any therapeutic intervention.

CLS 713 - Risk Assessment with Sexual Offenders

3 Credits

This course will focus on 1) differentiating between types of sexual offenses and assessing the risk in each category; 2) research on risk assessment and recidivism; 3) actuarial and static risk assessment tools and how to use them in a clinical setting; 4) the impact and effectiveness of supervised release and community control on offender's risk of recidivism; and 5) how to assess effectiveness of psychological, behavioral, and chemical treatment of sex offenders.

CLS 714 - Sexually Transmitted Infections

3 Credits

This course will cover the statistics for age and population groups regarding prevalence of the various STIs. It will describe cause, incidence and transmission, symptoms and complications, and treatment for viral and bacterial STIs, as well as vaginal infections and ectoparasitic infections, including pubic lice and scabies. It will cover the basics of HIV: what it is, how it is transmitted, how transmission is prevented and which populations are more susceptible to transmission and why.

CLS 715 - Sexual Abuse Treatment

3 Credits

This course will focus on 1) types of sexual abuse as categorized by behavior, victim, and offender; 2) first response strategies when someone has been abused; 3) how to assess level of trauma and identify mediators of trauma; 4) diagnosis of PTSD symptoms; 5) the principles of recovery: Empowerment, Establishing Safety, Remembrance and Mourning, and Reconnection (from Judith Herman, M.D.); 6). Utilization of a variety of trauma interventions and treatments, including EMDR, Rapid Reduction Technique, and Critical Incident Stress Debriefing as applied to sex abuse.

CLS 716E Sexual Pharmacology

1.5 Credits

This course will focus on 1) medications prescribed for medical or psychiatric illnesses and the effect on sexual functioning, 2) the effect of illicit drugs on sexual functioning, and 3) medications prescribed for the treatment of sexual dysfunctions and disorders.

CLS 717E Non-Monogamous Lifestyles

1.5 Credits

This course will explore the variations beyond monogamy in sexual and emotional relationships. It will include how clinicians can help clients explore their options and engage in non-monogamous lifestyles responsibly and healthily.

CLS 718E Enhancing Intimacy and Passion

1.5 Credits

This course will prepare student to 1) Define Intimacy & Passion; 2) Identify the reasons why a relationship may lose intimacy and passion; 3) Define the Five Senses: See, Hear, Smell, Taste and Touch. Explore how utilizing the Five Senses: See, Hear, Smell, Taste and Touch can enhance intimacy & passion; and 4) Describe different techniques that incorporate the senses for enhancing intimacy and passion.

CLS 719E Sexuality and Disabilities**1.5 Credits**

This course will include 1) Barriers faced by teens and adults who are mentally/emotionally challenged; 2) Challenges faced by people with physical disabilities as a result of birth, accident, or military service; 3) Provide strategies and resources for helping individuals optimize their sexual potential.

CLS 720E Addiction 101**1.5 Credits**

This 5-hour presentation will explore the history of addiction, from drugs and alcohol to gambling to sex to all things internet-related. It will conceptualize addiction as an overall process, rather than people being addicted “to” something. The relationship between addiction and early internal incorporation of negative messages will be explained. The phenomenon of resistance to the concepts of “sex addiction” and “codependence” will be explored contextually. Finally, recovery will be defined as not just recovery *from* addiction, but as recovery *of* Connection. Recovery strategies and tools will be provided.

CLS 721E Sexuality and Substance Abuse**1.5 Credits**

This course will 1) Differentiate between the functions of the limbic system and the prefrontal cortex, 2) Describe the intersection of sexuality and substance use on the limbic system, 3) Describe the link between sexual trauma and substance use, 4) Identify the effects of the major drugs of abuse on sexual functioning, 5) Utilize strategies for teaching healthy sexuality to their recovering clients

CLS 722E Pelvic Floor Physiology**1.5 Credits**

The pelvic health physiotherapy elective will give practitioners a wider understanding of the pelvis, specifically the pelvic floor and its role within sexual health and dysfunction. The hope is that by the end of the 5 hour elective students will have an understanding of what a pelvic health physiotherapist does in practice and when to refer patients. The elective will emphasize the importance of working on a team in sexual health treatment to provide the best care for patients.

CLS 723E Human Trafficking**1.5 Credits**

In this elective students will learn the 1) Dos and Don'ts during the Interview with someone you suspect is trafficked 2) Gain knowledge in typologies of buyers and traffickers and recognize signs and symptoms of coercive Trauma Bonding 3) Review and discuss Case Studies 4) Gain insight into recruiting methods via the Darknet and AIs 5) Describe the role accreditation agencies play in helping combat Human Trafficking

CLS 724E Divorce and Separation**1.5 Credits**

This course will help clinicians to work with clients to help them better manage their stress, conflict, and relationships due to experiencing separation and divorce. With approximately 50% of the population in the US experiencing divorce, many clinicians find that they are struggling to manage client's presentation surrounding the myriad of issues when they emerge in the clinical process. This course will provide practical skills such as co-parent counseling, reunification counseling, and parenting support, to address the many facets that this transition presents with, when working with clients of all ages.

CLS 725E Kink Aware Therapy: A training for Professionals**1.5 Credits**

This sex positive and kink-affirming course will provide students who are interested in working with clients who live in “alternative” lifestyles, including kink, BDSM, polyamory, ethical non-monogamy, and

more. Students will enhance their ability to connect with their clients through deepening their understanding and compassion towards this often misunderstood group. We will discuss various approaches to working with kinky people, including therapeutic interventions, class discussion, and collaboration with peers. This program takes a holistic approach to working with clients and challenges traditional practices of how we “should” provide therapy.

CLS 801 - Clinical Supervision

3 Credits

Practicum, as defined by the Merriam-Webster dictionary, is a course of study for teachers, doctors, nurses, etc., that involves working in the area of study and using the knowledge and skills that have been learned in school.

Students will present cases from their clinical practices and review case studies provided by the supervising instructor. They will apply the major models of sex therapy for clinical social work, marriage and family therapy, or mental health counseling. Students will gain and apply skills to develop a personal model of clinical work and practice preferred styles of therapy. They will discuss the co-evolving dynamics of therapist-client relationships, explore distinctive issues that arise in sex therapy and counseling, and address the contextual variables in practice such as culture, gender, ethnicity, power, and economics. Students will become familiar with and demonstrate the ethical, legal, and regulatory issues of clinical sexology practice. They will discuss the role of evaluation and assess evaluation tools during supervision. The variety of cases will prepare students for the oral examination.

The supervision will be in the form of case consultation sessions where students will present written case logs, excluding identifying information, or case studies from IICS that will be discussed with the supervisor and other participating students. The supervision consists of case discussion and review, reading appropriate materials, and the implementation of treatment interventions by the supervisor. Students will see clients in their own professional offices. Supervision will take place via webinar.

It will be the student's responsibility to maintain a case log during the course of supervision. The log will contain the date, type of case, client's age, gender, marital/relationship status, DSM-5 codes, and the modality of therapy used. The supervisor will keep a similar log.

Students will engage in a minimum of 10 hours of individual and 20 hours of group supervision. They will use a combination of cases from their own caseloads as well as case studies provided by IICS. Students will research treatment interventions on their own to incorporate into the presentation.

Specialty Concentrations

Behavioral and Substance Addiction

BSA 701 - Principles of Addiction and Treatment

2 Credits

Course content will include 1) criteria and methods for evaluating models and theories; 2) terms and concepts related to theory, etiology, research, and practice; 3) exploration of the scientific and theoretical bases of treatment from medicine, psychology, sociology, religious studies, and other disciplines perspectives; 4) the continuum of addiction, including initiation, intoxication, harmful use,

abuse, dependence, withdrawal, craving, relapse, and recovery; 5) the behavioral, psychological, social, and health effects of psychoactive substances and the interaction with process addictions; 6) differentiation of sex addiction from paraphilic and sex offending disorders.

BSA 702 - Evaluation, Assessment & Co-occurring Disorders

2 Credits

Course content will include 1) utilization of established diagnostic criteria, including but not limited to, current *Diagnostic and Statistical Manual of Mental Disorders (DSM)* standards and current *International Classification of Diseases (ICD)* standards; 2) analysis of how symptoms of addictive disorders are similar to those of other medical and/or mental health conditions and how these disorders interact, in addition to the medical and mental health conditions that most commonly exist with addiction disorders; 3) utilization of a variety of assessment instruments; 4) making appropriate treatment recommendations.

BSA 703 - Service Modalities and Models of Treatment

2 Credits

Course content will include 1) the generally accepted models, such as but not limited to: pharmacotherapy, mutual help and self-help, behavioral self-control training, mental health, self-regulating community, psychotherapeutic, trauma reparation, and relapse prevention; 2) discussion of the philosophy, practices, policies and outcomes of the most generally accepted therapeutic models; 3) how to utilize motivational enhancement therapy appropriate to the various stages of dependence, change, and recovery.

BSA 704 - Family Systems & Co-dependency

2 Credits

Course content will include 1) the effects of addiction on significant others and communities within a social, political, cultural, and economic context; 2) discussions on the role of family, social networks, and community systems as assets or obstacles in treatment and recovery processes; 3) the applicable methods for incorporating family and social dynamics in treatment and recovery processes; 4) assessment of the individual treatment needs of partners and children and implementation of appropriate interventions.

BSA 705A – Treatment Planning and Relapse Prevention - Part A

2 Credits

Course content will include 1) a review of Florida Statute 397 related to addiction treatment programs 2) an identification of treatment problems, goals, and measurable objectives;

BSA 705B – Treatment Planning and Relapse Prevention – Part B

2 Credits

3) effective development of the treatment plan in coordination with the client; 4) identification of individual relapse triggers and appropriate interventions; 5) development of aftercare recommendations.

BSA 706 A - Medical, Mental Health, and Pharmacology Part A

2 Credits

Course content will include 1) fundamental concepts of pharmacological properties and effects of all psychoactive substances; 2) medical conditions that contribute or otherwise impact addictive behavior;

BSA 706 B - Medical, Mental Health, and Pharmacology Part B

2 Credits

3) mental health conditions that require pharmacological intervention and the effect on addictive behavior; 4) review of the current literature regarding medical and pharmacological interventions to treat addiction; 5) evaluation of the assets and liabilities of medical and pharmacological interventions.

BSA 707 - Ethical and Behavioral Standards**2 Credits**

Course content will include 1) a review of FCB, ATSA, and SAST Codes of Ethics; 2) implementation of the Ethical Decision-Making Model from APA; 3) a review of Americans with Disabilities Act legislation and application to addictions treatment; 4) a discussion of confidentiality and limits thereof; 5) the range of appropriate responses to crisis situations

BSA 708 - Cultural Diversity and Special Populations**2 Credits**

Course content will include 1) basic concepts of social, political, economic, and cultural systems and their impact on sexual and addictive behavior; 2) various cultural norms, values, beliefs, and behaviors including cultural differences in verbal and nonverbal communication; 3) analysis of research reports and literature identifying risk and resiliency factors for sex addiction, as well as statistical information regarding the incidence and prevalence of sex addiction in the general population and major demographic groups; 4) the unique influence the client's culture, lifestyle, gender, and other relevant factors that influence behavior; 5) impact of addiction on seniors, women, and GLBT individuals and families.

BSA 801 – Independent Study- Clinical Application**Credits included with class**

Students will complete a series of assignments including reading, viewing videos, writing assessments, writing a treatment plan, and attending meetings.

Hypnotherapy and Sexuality**HYP 701 Principles to Hypnotherapy****2 Credits**

Course content will include 1) All preliminary material before actually hypnotizing clients including suggestibility tests, history, and theories; 2) Recognition and classification of subjects including common fallacies we encounter, occupational susceptibility, age and susceptibility of highly impressionable and emotional people, qualifications of clients; 3) How to create rapport with clients; 4) difference between the conscious and sub-conscious mind; 5) Cautions of hypnosis including avoiding possible physical injury, sudden shocks, working through an abreaction; 6) students will observe and critique classmates practicing suggestibility tests.

HYP 702 Foundations of Hypnotherapy**2 Credits**

Course content will include 1) How to administer a pre-talk; 2) How to hypnotize including the depth stages of hypnosis and emerging procedures; 3) students will learn the 3-step induction procedure, Dr. Flower's Hypnotic Induction Technique, and self-hypnosis; 4) students will learn how to incorporate the Swish Pattern to aid clients in behavior modification; 5) students are introduced to the 6 depth stages of hypnosis and criteria for judging trance depth; 6) students will practice and demonstrate the fundamentals of hypnosis.

HYP 703 Advanced Practice of Hypnotherapy 1**2 Credits**

Course content will include 1) Understanding the importance of hypnotic suggestion; 2) learn about the 6 elements that make up a chain of suggestions; 3) learn the difference between suggestions, post-hypnotic suggestions, and anchors; 4) learn the difference between reinforcement and enforcement in suggestion development; 5) differentiating between negative and positive hallucinations and the hyper amnesia phenomena and sensory anesthesia; 6) practice positive action script writing.

HYP 704 Advanced Practice of Hypnotherapy 2**2 Credits**

Course content will include 1) Practice hypnosis with a classmate using the classmate's positive action script for behavioral change; 2) practice methods to bypass the conscious mind; 3) practice techniques of creating a biochemical response with thought; 3) students will learn to conduct both a weight management and smoking cessation group; 4) pain anesthesia and management; 5) students will practice and demonstrate proficiency in all areas covered to date.

HYP 705 Ethical Practice of Hypnotherapy**2 Credits**

Course content will include 1) The Code of Ethics and Standards of Practice as set forth by The National Board of Professional and Ethical Standards Hypnosis Education and Certification; 2) The client Bill of Rights; 3) A Guide to Language differentiating the terminology a licensed professional may use as opposed to a non-licensed hypnotist; 4) staying within your realm of expertise; 5) understanding the difference in nomenclature between a hypnotherapist and a hypnotist.

HYP 706 Sexual Dysfunction Treatment 1**2 Credits**

Course content will include 1) understanding when and how to use hypnosis in the treatment of male sexual dysfunction; 2) writing scripts to address issues of male sexual dysfunction; 3) understanding and overcoming a client's possible discomfort in the pre-talk when the hypnosis addresses sexual issues; 4) using hypnosis to assist the client in overcoming issues with bodily functions such as an inability to urinate in front of other males, feelings of inferiority or body dysmorphia or other debilitating perceptions.

HYP 707 Sexual Dysfunction Treatment 2**2 Credits**

Course content will include 1) understanding when and how to use hypnosis in the treatment of female sexual dysfunction; 2) writing scripts to address issues of female sexual dysfunction; 3) understanding and overcoming a client's possible discomfort in the pre-talk when the hypnosis addresses sexual issues; 4) using hypnosis to assist the client in overcoming issues with bodily functions such as feelings of guilt or shame, inferiority or body dysmorphia or other debilitating perceptions.

708 Clinical Applications for Special Populations**6 Credits**

Course content will include 1) students will demonstrate the pre-talk techniques, 2) students will conduct an intake evaluation; 3) students will demonstrate an induction into hypnosis and will administer suggestions, post-hypnotic suggestions and anchors; 4) during the course of the 75 hours of classroom study, students will engage in 25 hours of practice at home in all aspects of hypnosis; 5) students will take a quiz at the end of each weekend class; 6) students will complete a research paper on applying hypnotherapy to a specific sexual dysfunction.

HYP 709 Independent Project**Credits included with class**

Students will complete a project creating and utilizing interventions learned in class and present to the instructor and classmates.

Therapeutic Gender Training

TGT 701- Foundations of Gender Diversity

1 Credit

Course content will include 1) Define foundational terms related to gender identity and expression. 2) Differentiate between sex, gender, and sexual orientation. 3) Describe the historical and cultural contexts of gender diversity. 4) Identify the impact of cisnormativity and systemic oppression. 5) Practice affirming language and communication.

TGT 702- - Gender Identity Development and Lifespan Considerations

1 Credit

Course content will include 1) Explore gender identity development in childhood, adolescence, and adulthood. 2) Describe how life stages influence gender exploration and dysphoria. 3) Identify intersectional factors (race, disability, SES) affecting development. Disability, and neurodivergence 4) Apply developmental theories, including Devor's and Lev's models. 5) Describe how the limbic system affects our experience of sex and gender.

TGT 703- - Minority Stress and Mental Health

1 Credits

Course content will include 1) Define the minority stress model and its relevance to TGD populations. 2) Recognize the psychological effects of transphobia, stigma, and discrimination. 3) Identify common co-occurring mental health challenges. 4) Apply trauma-informed and resilience-based approaches in care.

TGT 704- - Gender-Affirming Therapeutic Approaches

1 Credit

Course content will include 1) Apply affirmative therapy principles and frameworks in clinical practice. 2) Integrate CBT, DBT, and ACT within gender-affirming contexts. 3) Use narrative and trauma informed therapies with trans clients. 4) Address internalized transphobia in a therapeutic setting. 5) Review WPATH Standards of Care (v8). 6) Clarify the therapist's role in letters of support and informed consent.

TGT 705- - Medical Aspects of Gender Transition

1 Credit

Course content will include 1) Describe the basics of hormone therapy and gender-affirming surgeries. 2) Support clients through medical transition-related decisions and care. 3) Describe post-hormone and post-surgery needs

TGT 706- - Supporting Youth and Families

1 Credit

Course content will include 1) Explore developmental considerations in working with trans and nonbinary youth. 2) Engage in family systems work to support caregivers. 3) Facilitate school and community advocacy. 4) Provide gender-affirming assessments and readiness for minors.

TGT 707- - Legal and Ethical Issues in Therapeutic Gender Training

1 Credit

Course content will include 1) Describe laws related to name/gender marker changes and confidentiality. 2) Navigate institutional discrimination and ethical boundaries. 3) Practice appropriate documentation and informed consent practices. 4) Identify when and how to advocate legally for clients. 5) Navigate ethical considerations, including therapist self-awareness and biases.

TGT 708A Working with Trans Masculine, Trans Feminine, and Nonbinary Clients

.5 Credit

Course content will include 1) Describe diverse experiences and identities across the trans spectrum.

- 2) Tailor treatment planning to the unique needs of trans masc, trans femme, and nonbinary clients.
- 3) Affirm fluid and evolving gender journeys.
- 4) Address body image, dysphoria, and social embodiment issues.

TGT 708B Advocacy, Allyship, and Systems Change

.5 Credit

Course content will include 1) Define the therapist's role as an advocate and ally in systemic contexts. 2) Identify strategies for institutional and community advocacy. 3) Integrate social justice practices into therapy. 4) Create an action plan for ongoing professional development and activism.

TGT 709- - Intersectionality and Cultural Competence

1 Credit

Course content will include 1) Apply an intersectional lens to race, class, and religion in transgender care. 2) Challenge biases and systemic inequalities within clinical settings. 3) Use culturally responsive and anti-oppressive therapeutic practices. 4) Support clients facing compounded marginalization.

TGC 710 – Remediation, Regret, Detransition

1 Credit

Course content will 1) Identify areas of remediation needed prior to transition. 2) Implement interventions for working with clients who regret their transition. 3) Describe the various issues detransitioning people face. 4) Describe therapeutic and medical interventions for detransitioning people.

TGC 801 – Clinical Practicum & Supervision

10 Credits

Practicum, as defined by the Merriam-Webster dictionary, is a course of study for teachers, doctors, nurses, etc., that involves working in the area of study and using the knowledge and skills that have been learned in a school.

Students will complete 80 hours of work with transgender clients by developing and providing educational classes, support groups, group therapy, or other interventions to assist the transgender community. They will complete documentation on assessment, treatment planning, treatment coordination, and other presenting clinical issues while under the supervision of a supervising instructor. Clients will be engaged through internet marketing, current support groups, and word of mouth. All clients will give Informed Consent to being treated by a student under supervision. As a prerequisite for practicum, students will be licensed or license-eligible to provide counseling to clients in individual settings.

The supervision will be in the form of case consultation sessions where students will present written case logs, excluding identifying information that will be discussed with the supervisor and other participating students. The supervision consists of case discussion and review, reading appropriate materials, and the implementation of treatment interventions by the supervisor. The student will see clients in his/her/hir/their professional office. Supervision will occur via a secure internet connection.

It will be the student's responsibility to maintain a case log during the course of supervision. The log will contain the date, type of case, client's age, gender, marital/relationship status, DSM-5 codes, and the modality of intervention used. The supervisor will keep a similar log.

Students will also engage in four hours of group case consultation and research a case to present during this time.

Kink Aware Therapy

KAT 701 Foundations and Principles of Kink and BDSM

2 Credits

This course establishes a foundational understanding of the kink community, beginning with the principle of "Don't yuck my yum" to foster an environment of acceptance and respect. It provides a general definition of terms relevant to the cohort. A significant focus is placed on the scope of practice, ethics, and morals, encouraging an exploration of the "why" behind client interests, with a strong emphasis on **consent and safety**.

KAT 702 Myths and Misconceptions

2 Credits

This course focuses on addressing various biases and misunderstandings surrounding BDSM and kink.

KAT 703 History of BDSM and Power Exchange Dynamics

2 Credits

This course delves into the intricate world of BDSM (Bondage, Discipline, Sadism, and Masochism) and power exchange dynamics. It aims to provide a comprehensive understanding of various facets within this subculture, emphasizing consent and safety as paramount.

KAT 704 Legal and Ethical Practice

2 Credits

This course focuses on the legal and ethical landscape surrounding kink and alternative sexual practices, centers on ensuring all activities are consensual, safe, and legally compliant. This involves a deep understanding of core values, utilizing frameworks like RACK for clear communication and risk assessment, and adhering to the "sane, safe, consensual" principle.

KAT 705 Kink in Cultural Contexts

2 Credits

This course will delve into the multifaceted ways culture shapes and is shaped by kink practices, emphasizing the importance of consent across diverse cultural contexts. It would also explore the nuanced differences between altered states and dissociative states within various cultural frameworks, particularly as they relate to kink.

KAT 706 Intersection of Kink, Addiction, and Sexual Dysfunctions

2 Credits

This course delves into the complex relationship between BDSM and addiction, exploring how these two facets can intersect in individuals' lives.

KAT 707 Kink, Consent, and Abuse Dynamics

2 Credits

We will explore how different body types and abilities intersect with kink practices, highlighting the unique challenges and strengths they bring.

KAT 708 Love, Kink, and Alternative Lifestyles

2 Credits

Explores the intricate connections between neurobiology, attachment, self-esteem, and defenses in the context of love, while also delving into the complexities of intimacy, consent, and safety within relationships. It further examines the intersectionality of kink and love, addressing potential overlaps with relationship addiction.

KAT 709 Clinical Considerations and Biases

2 Credits

Clinical considerations regarding kink and BDSM practices involve a multifaceted approach, addressing both potential challenges and affirming healthy engagement. Understanding the interplay between

individual psychology, relational dynamics, and societal factors is crucial for clinicians working with this population.

KAT 710 Best Practices with Therapeutic Kink

2 Credits

This course focuses on the ethical integration of kink into therapeutic practice, aiming to provide therapeutic and relational benefits such as increased happiness, reduced stress, improved communication, and addressing shame through approaches like Tantric kink. Best practices emphasize avoiding common clinical mistakes, fostering client disclosure, managing transference, and utilizing a range of therapeutic modalities including polyvagal, attachment-focused, trauma-informed, somatic, EMDR, and grounding techniques, supported by specific tools like the "Questionnaire: Day-to-Day power," "Intimacy by the Numbers," and "ECRM application."

KAT 801 Supervision

Credits included with class

Students will meet with the instructor for case consultation and supervision for 10 one hour sessions in which your Case Studies are focused on dysfunctions, disorders, and/or relational/sexual challenges with regards to the Kink Specialty.

Sex Offender Therapy

SOT 701 Reproductive Anatomy and Sexual Physiology Theories

2 Credits

This course will provide students with an understanding of the anatomy and physiology of the Reproductive system of both males and females. The course will 1) demonstrate the ability to comfortably discuss sex and the reproductive system; 2) Describe pubertal changes in males and females; 3) Identify the structure and function of the internal and external female reproductive anatomy; 4) Identify and describe the internal male organs and the processes of sperm production and ejaculation; 5) Describe the structure and function of the internal and external male sexual anatomy. 6) Describe the physiological changes during sexual arousal and response, and discuss different cycles of sexual response.

SOT 702 Development Sexuality

2 Credits

This course will provide students with an understanding of sexual development through the life cycle. Students will 1) differentiate between sex and gender development; 2) discuss identity and sexual diversity; 3) Develop and implement strategies to help parents talk to their children about sex and sexuality. 4) Describe the specific process of sexual development in young children. 5) Describe how biological, social, cultural, and psychological factors affect psychosexual development. 6) Recognize how the teenage brain differs from an adult brain in executive functioning. 7) Describe how adolescents make decisions about sexuality.

SOT 703 Development of Sexual Arousal Patterns

2 Credits

This course will provide students with an understanding of the History of Sexual Deviance, Sexual Dysfunctions, Deviance, Disorders, and the relevant DSM Diagnosis. Students will 1) Discuss in general terms the history of sexual deviance; 2) Differentiate normal and abnormal sexual behavior; 3) Discuss relevant sexual-related disorders; 4) Describe the different processes of deviant arousal may occur; 5) Describe how biological, social, cultural, and psychological factors contribute to the development of paraphilias. 6) Recognize and discuss normal and deviant sexual fantasies; 7) Recognize sexual dysfunctions that may be of importance when treating sexual offenders

SOT 704 The Sexual Offender**2 Credits**

This course will provide students with an understanding of the “Sexual Offender”, Sex Offender Registration, and Respective Laws/Acts. Content includes 1) Knowledge of the definition of sexual offender from a legal and clinical perspective; 2) Describe and discuss challenges for therapists in this field. 3) Knowledge of the therapist's role in the field of sexual offending; 4) Understand the legislature and history of federal registration and notification; 5) Describe and discuss the effects and perceptions of the sexual offender. registry as they pertain to the offender, the public, and the victim; 6) Understand sexual offender subtypes and typologies; 7) Knowledge of sex crimes from a legal perspective.

SOT 705 Interactions Between Sexuality & Dynamics of Interpersonal/Family Relationships**2 Credits**

This course will discuss how sexuality is impacted by interpersonal and family dynamics. Content includes: 1) Be knowledgeable of the Dynamics Within the Family System; 2) Distinguish Between the Different Family Types; 3) Understand the Characteristics of Intimate Relationships; 4) Describe the Purpose of Intimate Relationships; 5) Understand the Common Bonds; 6) Understand the Role of Sexuality Within the Family.

SOT 706 Evaluation of Adult and Juvenile Sex Offender**2 Credits**

This class will provide clinicians with the knowledge and skills to conduct adult and juvenile risk assessments and psychosexual evaluations. Content includes: 1) Distinguish between the 3 generations of Forensic Assessments; 2) Explain the concept of protection of the public versus the best interest of the client; 3) Evaluate the level of risk related to the type of sex offense; 4) Explain the impact of supervised release and community control on the offender’s risk of recidivism. 5) Identify the subject areas incorporated into a variety of risk assessment tools; 6) Evaluate sex offending within families in conflict. 7) Critique the research on risk assessments and recidivism; 8) Use the various assessment instruments with case studies provided; 9) Describe the interventions used to reduce the risk of recidivism.

SOT 707 Juvenile Treatment**2 Credits**

This course will provide students with an understanding of the complete process of working with juvenile sexual offenders. Content includes: 1) Understand what the term juvenile sex offender and how it relates to treatment; 2) Understand the ways juveniles can enter treatment; 3) Know the difference and similarities between adult offenders and juvenile offenders; 4) General knowledge of the etiology of juvenile offending and victimization; 5) Understand the juvenile treatment and its multi-disciplinary process; 6) Knowledge of treatment modalities and goals; 7) Understand the importance of the therapeutic relationship with juveniles; 8) Understanding the importance of self-care when working with offenders.

SOT 708 Adult Sex Offender Treatment**2 Credits**

This course will provide students with an understanding of the complete process of working with adult sexual offenders. Content includes: 1) Describe and define Adult Sex Offender; 2) Understand the different ways Adults Offenders can enter treatment; 3) General knowledge of the etiology of adult sexual offending and victimization; 4) Understand the adult treatment and its multi-disciplinary process; 5) Knowledge of treatment modalities and goals; 6) Understand the role of the therapist working with Adult Sex Offenders; 7) The treatment process and content; 8) Understanding the importance of self-care when working with offenders.

SOT 709 Treatment of Special Populations

2 Credits

This course will provide students with an understanding of the how to provide effective and current treatment to Special Populations within the sexual offender field of practice. Content includes 1) Understand who is considered “Special populations” when testing sexual offenders; 2) Will have an understanding of prevalence and typologies for each population; 3) Will be knowledgeable with valid instruments and effective treatment approaches for each population; 4) Be familiar with group treatment approaches with special populations; 5) Understand and be familiar with the specific goals of treatment for sex offenders in the victim empathy phase; 6) Effectively educate and assist sex offenders to understand and develop victim empathy; 7) Learn how to overcome offender resistance to this specific phase of treatment; 8) Define terms related to Victimology and Victims; 9) Discuss biased towards Victims and victim blaming; 10) Recognize and discuss issues between victims and the criminal justice system.

SOT 710 Risk Assessment- Research Instruments

2 Credits

Content includes: 1) Become familiar with ethical guidelines for behavioral health professions in the context of sexual offender treatment; 2) Recognize common ethical dilemmas in sexual offender treatment; 3) Become knowledgeable with the ethical standards pertaining to informed consent and limitations of confidentiality; 4) Effective management of conflicts, boundaries, and dual relationships specific to working with sexual offenders; 5) Therapist competence specific to working with sexual offenders; 6) Describe recent changes to the mandatory reporting laws.

SOT 801 – Independent Study- Clinical Application

Credits included with class

Students will complete a series of assignments including reading, viewing videos, writing assessments, writing a treatment plan, and attending meetings.

Sexuality And Disabilities

SDT 701- Historical Context: What is Ableism? What is Sexual Ableism?

2 Credits

Come join the teaching team for an introduction to the program and the key themes that we will explore together. Topics include sexual ableism, the historical legacies of the eugenics movement, and the medical and social models of disability.

SDT 702- Overview of Congenital Physical and Sensory Disabilities and How They Can Affect Sexual Functioning

2 Credits

This session provides an overview of how physical and sensory disabilities can shape sexual expression. As with all other classes, we explore both social and medical model-based approaches to working with a broad range of clients with physical and sensory disabilities.

SDT 703- Overview of Intellectual/Developmental Disabilities (Sexual Consent Issues, Etc)

2 Credits

This session provides an introduction to the social and medical factors shaping sexual expression for people with intellectual and developmental disabilities. Particular attention will be paid to the range of intellectual and developmental disabilities, the difference between consent and assent, and different therapeutic and educational strategies for working with this population.

SDT 704- Sex and Neurodiversity (Autism, ADHD, Learning disabilities, others?) 2 Credits

This session builds on the overview of intellectual and developmental disabilities to focus on the social and medical factors shaping sexual expression for people with autism spectrum conditions, ADHD/ADD, and other forms of neurodiversity. Particular attention will be paid to how therapeutic and educational strategies can be adapted for neurodiverse clients.

SDT 705- Sex and Mental Health Conditions 2 Credits

As sexuality professionals, we frequently work with individuals living with mental health conditions, but these conditions are often not considered from a disability perspective. In this session, we discuss the social, medical, and pharmacological factors that can influence sexual identity and expression for individuals with mental health conditions.

SDT 706- Sexuality and Acquired Disabilities: SCIs, TBIs, STIs, etc 2 Credits

Many individuals acquire disabling conditions over the course of their lifespan. This session focuses on how acquiring a disability might influence sexual identity and expression with particular emphasis on a posttraumatic growth perspective.

SDT 707- Disability and Sex Work 2 Credits

Therapeutic and non-therapeutic sex work can be powerful, albeit ethically contentious, means of sexual empowerment for individuals with disabilities. In this session, we explore why sex work is often considered alongside sexual ableism and discuss when sex work is or is not an appropriate therapeutic modality for clients with disabilities.

SDT 708- Disability and Alternative Sexual Lifestyles/Identities (LGBTQ+, BDSM, etc) 2 Credits

This section focuses on the intersection of disability and LGBTQIA+ communities, as well as kink and other non-normative sexual identities and expressions.

SDT 709- Aging, Disability, and Sexuality 2 Credits

The aging process often contributes to individuals acquiring disabilities over time. In this session, we discuss the relationship between aging and disabilities, as well as an overview of adaptive strategies and tools to help older adults engage in satisfying sexual expression.

SDT 710- Sexuality and Dementias 2 Credits

Alzheimer's disease and related dementias present one of the most pressing public health emergencies today. This session explores the social and medical factors shaping the lives of people living with these conditions, as well as how to address the sexuality-related challenges arising from them.

Program Objectives

Students graduating from the Clinical Sexology program will be able to:

1. Demonstrate comprehensive clinical assessment skills, including the following:
 - Diagnosis of sexual disorders using the DSM-5.
 - Assess for psychological, medical, and pharmacological etiology of sexual disorders. Speakers from various disciplines will lecture and answer questions.
 - Design the appropriate clinical interventions for the diagnosis.
 - Comprise a variety of alternative interventions and a team of providers from other disciplines to for effective treatment of specific sexual disorders.

2. Demonstrate comprehensive skills in clinical intervention during class and case consultation.
 - Students will work with cases from their own practices, other students' practices, and case studies that comprise a wide spectrum of sexual issues.

3. Identify and understand issues related to cultural diversity and individual differences as they affect clinical competencies.
 - IICS will bring speakers from various races and cultures to present during class. Panel members and speakers from around the globe will discuss sexual disorders from their personal experiences and answer questions. Students from various places in the U.S. and other countries will be able to contribute their personal experience and knowledge of various cultures during class and case consultation.

4. Demonstrate the ability as clinical sexologists to serve as clinical supervisors, administrators, and consultants in diverse settings.
 - Graduates will be experts in the field of sexology and as such, will be in supervisory and administrative positions in their respective fields. IICS provides a Clinical Supervision course to prepare students for these roles.

5. Demonstrate the skills to be discerning consumers of scholarly works and research, including studies of empirically based treatment methodology.
 - Throughout the dissertation/doctoral project segment of the program, students will learn how to critique, evaluate, and apply existing research from books and journals. As experts in the field of sexology, graduates will be authoritative voices on various subjects. IICS will prepare them for this role.

Definition of Credit Hours

Credit hours are based on quarter credit hours as defined in Rule 6E-1.003, F.A.C. Each quarter credit hour is a unit consisting of a minimum of ten hours of instruction appropriate to the level of credential sought, during a quarter, plus a reasonable period outside of instruction which IICS requires a student to devote to preparation for learning experiences, such as preparation for instruction, study of course material, completion of educational projects, and planned learning experiences appropriate to each specialty component. A practicum experience is part of each program component.

Completion of doctoral research in the form of a dissertation or doctoral project is what qualifies you for a PhD. It says that you are an expert in a particular area and that you have contributed something new to the field.

Dissertations and doctoral projects both involve a considerable amount of research to make you an expert and then writing up your findings in the form of a literature review that leads to identifying a missing piece that you, the doctoral student, will fill in. The difference between them is that a dissertation measures something and a doctoral project creates something.

For example, a dissertation may measure the impact of an external event on the subjects' sexuality; while a doctoral project may create an intervention that will teach people how to address a problem such as having a transgender parent.

Our faculty offers office hours, workshops, and individual guidance throughout the process.

A PhD is a degree that tells the world that you are an expert in a particular area of your field and that you have contributed something original to the field. That is the intention of the dissertation or doctoral project.

A dissertation will include a hypothesis developed from a review of research previously published and that is either supported or not by the data you collect and analyze. A project is also based on existing research and will provide the rationale for an intervention or resource that you will create. Detailed instructions for the dissertation or project are provided to you in the Dissertation Criteria package in Google Drive. You will need to review this thoroughly before starting your research.

The process begins with submission of a Letter of Intent to the Dean of Students, who will then assign a Dissertation Chair. That person will work with you through completion of your work, using the Dissertation Chair Review form as a guide to what tasks you need to complete and dates due.

While active in the sexology education portion of the program, you are encouraged to brainstorm ideas for your dissertation/project. You may submit your Letter of Intent at any time. If you have not submitted it by month 10 of the program, you will receive a reminder from the Dean that you will be

completing your education classes in two months and to finalize your ideas. If you have not submitted the Letter of Intent by month 12, the Dean will send another letter informing you that you have 30 days to submit the letter. If you do not submit it by the end of that time period, you will be referred to the Director, who will work with you on a plan to move forward.

Throughout the program, we will offer dissertation workshops and individual office hours to help you.

IICS works individually with all students to facilitate successful completion and our bestowing upon you a doctoral degree.

Satisfactory Academic Progress Policy

Students will be required to submit written assignments throughout their coursework. The grades for these assignments will be based on Satisfactory/Unsatisfactory criteria. If a student submits an Unsatisfactory paper, s/he/they will be allowed to re-do the assignment, up to two re-submissions, until it is Satisfactory. All assignments must be assessed as Satisfactory before the student can sit for the Oral Exam. If a student disagrees with the instructor's assessment of the assignment, s/he/they may submit an Academic Grievance to the IICS Program Director (hereinafter referred to as the "Director").

Students are required to complete a comprehensive, take-home written exam due by completion of the sexology education program. A copy of this exam will be in the student's individual folder on Google Drive. Students may fill it out as they go but it will not be graded until all classes are completed. If the student does not pass with an 95% correct answer rate, remedial work will be recommended. The Written Exam will need to be successfully completed prior to scheduling the Oral Exam. Students will be Board Certified upon successful completion of the exam and supervision/case consultation sessions.

Upon completion of the 54 credit Clinical Sexology Educational component, each student will meet for an Oral Exam with three (3) Board members who will comprise the IICS Examination Committee. The student will answer questions relating to each content area, cover the Program Objectives described above, and be graded by each committee member on ability to treat content-relevant cases. The committee will evaluate the student according to specified criteria. The grade will be based on the average of the three evaluations. If a student fails the oral exam, they will need to reschedule after 2 months. There is a charge of \$200 to retake the oral exam and a charge of \$75 for subsequent paired supervision or \$40 for group supervision.

Grading System

Grade Percentage Classification

Pass: Able to Treat Complex Cases

Fail: Not Competent Yet

I – Incomplete

U-Unsatisfactory

S-Satisfactory

WP - Withdrew Passing

WF - Withdrew Failing

Probationary Status

Students must earn a Pass – Able to Treat Complex Cases - to successfully complete the Sexology Education portion of the program. Students will need to achieve a Satisfactory grade in their specialty. Any student not achieving this will be given an I-Incomplete and be required to re-take classes in their weak areas. The student will be given case studies with resources in order to master the subject. The relevant IICS instructor will be available to develop a remedial plan with the student that will address problem areas. The instructor will monitor the student’s progress and report to the Director. There will be no additional charge unless the student seeks individual consultation with a consultant outside of IICS.

Students may take up to a year to attain a passing grade. If at any time during the remedial process, the instructor and the Director agree that the student is not capable of progressing, the student will be brought in for a meeting to discuss the advisability of continuing the program. At the end of a year, if the student has not attained a passing grade, the student will be dismissed from the program and not allowed to reapply for one year. Re-acceptance will be conditional upon an interview with the Director and relevant instructor. Acceptance is not guaranteed.

Leave of Absence and Voluntary Withdrawal

Students may take a temporary Leave of Absence from the program and return within one year to continue (WP-Withdrew Passing).

Students who voluntarily withdraw from the program may reapply at any time within two years from the date of termination. They will be credited with tuition paid and courses taken but will be accepted as new students and will be responsible for the tuition fee at the time of current acceptance. Acceptance is not guaranteed.

Fee Schedule effective April 2025

Total Program Tuition

The Ph.D. in Clinical Sexology is comprised of three segments and the fees are as follows:

1.	Clinical Sexology Education (57 credits)	\$12,540.00
2.	Specialty area of education (20 credits)	\$4,400.00
3.	Dissertation or Doctoral Project (20 credits)	\$4,400.00
	Total Educational Cost:	\$21,340.00
	(97 credits at \$220 per credit)	

Administrative Fees and Costs

Registration Fee (one-time)	\$100.00 (non-refundable)		
Transcript Request Fee	\$10.00 (each)		
Re-Entry Fee	\$100.00		
Duplicate Certificates	Hard copy	\$30	PDF \$10
Duplicate Diploma:	Hard copy only	\$75	
Duplicate Student ID		\$30	

Oral Exam Cancellation and Rescheduling	\$100
Oral Exam Retake	\$300

Students may work with IICS to formulate a payment plan as specified in **Terms of Payment of Tuition and Fees**. The default payment in this form is \$890 per month over 24 months, or \$712 per month over 30 months.

Textbooks and Supplies

Students are required to purchase their own textbooks from either retail or online suppliers. The estimated cost for Clinical Sexology is \$240. The Specialty Concentration's cost is dependent on which Specialty Concentration the student selects.

Terms of Payment of Tuition and Fees

Students have several payment options. Whichever they choose, the entire program must be paid in full to receive the degree and/or transcripts.

Methods of Payment

Students have the following options for payment schedule:

- Deposit paid at the time of signing enrollment agreement with balance paid prior to starting date.
- Deposit paid at time of signing enrollment agreement with balance paid prior to graduation by a payment plan.

Students may negotiate, at the time of registration, a weekly, monthly, or quarterly payment plan. The balance may be paid in full at any time

If a Specialty Component initiates prior to the student having made four monthly or one quarterly payment, the student has the option to pay the amount totaling four monthly or one quarterly payment or to wait until that Specialty Component is next offered to start the specialty classes.

Payments may be made using a credit card, check, PayPal, or money order.

Delinquent Payments

Upon enrollment, students will complete formal Application and Enrollment Agreements, which include a payment schedule reflecting monthly or quarterly payment amounts. If a student misses a payment, a reminder notice will be sent. The student needs to remit payment immediately or contact the IICS Administrative Office to make payment arrangements.

If a student's payments exceed two months in arrears, a 5% late fee will be added to the late balance each month.

If a student's payments exceed three months in arrears, the student will be notified that a payment must be made within 30 days or the student will be Administratively Withdrawn from the program. If

the student wishes to re-enroll, the IICS Board will make a determination regarding acceptance. If the student is accepted, it will be at the tuition rate current at that time and prior payments will be credited towards tuition.

Student Financial Assistance and Scholarship

IICS does not offer financial assistance nor does it work with any government agency to provide such assistance.

For those who qualify IICS offers a scholarship to applicants who meet financial criteria and demonstrate a need for sexology services in their community.

Scholarship Program

IICS has chosen to make a scholarship program available to provide service to an underserved community and to educate qualified professionals who have minimal financial resources. This scholarship will assist by providing partial funding for mental health professionals and other healthcare providers working primarily with an indigent population or clients with an income at or below the poverty level.

Eligible applicants are licensed, registered, or certified mental health professionals (i.e. LMFT, LPC, LCSW, LMHC) or interns in the process of pursuing licensure, or the equivalent in their country of residence. Scholarship candidates must demonstrate a financial need and be able to identify how they will utilize the training for the betterment of the community they are serving.

IICS will award up to a \$10,670 grant towards the \$21,340 tuition to the award recipient. The scholarship committee will evaluate the applicants and decide on the amount to be awarded. All recipients are responsible for the remaining tuition, which may be paid in monthly or quarterly installments.

Application Requirements

1. A personal and background statement written by the applicant (two pages) describing how the IICS Doctoral degree will be applied to career goals and why the applicant is deserving of the award.
2. A proposal (4-8 pages) describing the lack of services in the applicant's area of practice and how sex and sexuality intervention and/or treatment will be incorporated into a program that will benefit an underserved community.
3. Complete the online IICS Doctoral Program Application (be sure to include all supporting documents).
4. Complete and sign the IICS Financial Aid application;
5. Two professional letters of recommendation in support of the applicant's application and career goals;
6. Sign acknowledgment of the application criteria and requirements (last page of this document).

Please Note: *Incomplete applications will not be reviewed by the Committee.*

Selection Criteria

A Selection Committee of IICS Board Members will review applications and determine award recipients and the amount of the award. Applications will be judged using the following criteria, listed in order of importance:

- Commitment to sex and sexuality intervention and/or treatment as reflected in the personal statement
- A proposal for a program that will benefit an underserved community, including:
 - a) identification of the community to be served
 - b) a needs assessment
 - c) a description of services to be provided
 - d) an implementation plan
 - e) a quality assurance plan
 - f) resources supporting the information in the proposal
- Program application
- Financial need — both absolute need and need relative to tuition costs
- Letters of recommendation

Scholarship awards will be given to those demonstrating the highest levels of commitment to the profession as communicated in the personal statement, how the training will be utilized to benefit the applicant's community as identified in the proposal, strong letters of recommendation, and financial need.

The Award Process

1. The Selection Committee will meet as needed.
2. If a recipient is unable to attend the IICS Doctoral Program within three months of notification of award, does not begin making payments within one month, or fails to submit a written acceptance within the stated period after being notified of award, the scholarship will be withdrawn. The recipient will be able to reapply in six months.

Award recipients are required:

1. To provide written acceptance of the award
2. To begin payments of the recipient's share of the tuition.
3. To notify IICS of any change in address and/or employment.

Cancellation and Institutional Refund Policy

A student may withdraw from the program prior to taking any classes and will be refunded all tuition paid within 30 days, excluding the Application fee. Withdrawal must be made in person, via Certified Mail, or via email with a return receipt requested.

If a student is terminated, the Cancellation and Refund Policy will be applied. Students may be terminated from the program by the IICS Board for just cause as described under the **Student's Rights and Responsibility** section.

Textbooks are the property of the student and are not subject to refund

IICS has open enrollment, so a student's start date will be based on the first class that the student attends.

Drop/Add Period

Should a student's enrollment be terminated or canceled for any reason, all refunds will be made according to the following refund schedule:

1. Cancellation can be made in person, by electronic mail with a return receipt, by Certified Mail, or by termination.
2. All registration and tuition fees will be refunded if the student cancels within seven (7) business days after signing the student application and making the initial payment, with the exception of the \$100 application fee.
3. Cancellation after the seventh (7) Business Day, but before the first class, results in a refund of all monies paid, with the exception of the \$100 application fee.
4. The drop/add period is the first week at the beginning of each quarter. A student may drop a class/classes without incurring any charges. There will be no refunds for any class/classes dropped following the drop/add week. Those students who enter the program mid-quarter may have (7) days, including weekends, following attendance of first class to drop without incurring charge.
5. Termination Date: In calculating the refund due to a student, the last date of actual attendance by the student is used in the calculation unless earlier written notice is received. Refund will be calculated based on classes attended. There will be a 5% administrative fee applied.
6. Refunds will be made within 30 days of the termination of student's enrollment or receipt of a Cancellation Notice from the student.
7. Students are encouraged to notify IICS prior to the start of their program segment should they need to take an academic interruption during the program. All academic interruptions must be made in person, by electronic mail, or by certified letter.

Refunds will be based on the quarter during which the student either chooses to withdraw or is administratively withdrawn. If the student's account is in arrears, there will be no refund issued, regardless of how many classes the student has attended. If the student's account is current, then the refund will be based on how much the student pays per quarter. The student may receive a refund for the quarterly rate if withdrawn within 7 (seven) days after the start of the quarter.

For example, if a student is paying \$620 per month, has attended two quarters, and withdraws less than 7 days into the third quarter, then they will receive whatever they paid in excess of \$3,720.

Students who apply and are granted a Leave of Absence and then choose to withdraw will be a refund based on the last date of attendance.

If a student drops one Specialty and adds another, the student will be liable for the cost per credit of any classes taken in the dropped Specialty.

Students may be terminated from the Institute for the following reasons:

- Failure to maintain the contracted payment schedule.
- Failure to maintain minimum academic requirements (see “**Grading System**” in the Catalogue).
- Non-adherence to any student responsibilities.

Class Attendance Requirements

Students are required to attend all classes in full to obtain credit. Partial attendance will not be accepted. Class attendance is audited using the Zoom Reports.

Students may not record any classes using any recording media without the express permission of the Director. This includes phones, tablets, cameras, or other recording devices. It is possible that in the event of a student with a disability needing to record using specialized equipment that permission to record will be granted. Students may take written notes during class.

Students attending via live webinar are required to keep their cameras on to confirm attendance throughout the classes. In the event that a student does not have an operative camera or is unable to keep a camera on, they may request that the instructor otherwise confirm attendance through random requests for audio or chat communication.

Students may miss up to 3 classes. To receive credit, they must watch the recorded class video and submit a summary written in their own works..

Students given academic and financial credit for IITAP credentials need to attend all Behavioral and Substance Addiction classes. They also need to complete specified homework assignments.

Student Services

The Director, Administrator, and Instructors are all available via email and telephone for all student services.

Academic Advisement: The Director, Dr. Clark, has been trained in Admissions and will provide Academic Advisement, consisting of recommendations for specialty areas and dissertation topics. Drs. Volker, Rodriguez-Miller, Roszler, and Batista will provide advisement based on their own areas of concentration.

Financial Aid Advisement: There is no financial aid for tuition.

Dissertation Advisement: The Research Chair offers scheduled classes and office hours to assist students with this process.

Personal Advisement: All Board members are able to provide consultation with students experiencing personal difficulties. Board members will not provide therapeutic services, but only referrals and recommendations to the students’ local resources. Dr. Yulinda Rahman will guide new students as they enter the program.

Career Services: IICS does not provide placement services. IICS will make available to students a list of institutions, agencies, and other venues where their services as Clinical Sexologists may be of

value. IICS will also assist students with developing a marketing niche for their individual specialties. Records of initial employment of all graduates shall be maintained. Exceptions to this requirement shall be made for those graduates who attend the institution on a student visa or other temporary immigration status and who do not seek employment in this country.

Retention Improvement Plans: IICS will report its retention rate as defined by the Commission with each license review.

Payment Plan

All students are responsible for the fees as specified **Terms of Payment of Tuition and Fees**. There are no for reduction in tuition or fees.

Grievance and Appeal Procedure

Grievances generally fall into one of three categories: Academic, Administrative, or Sexual Harassment. Below are the procedures for each. Every student has the right to procedural due process during the grievance and appeal procedure.

Grievances that are substantiated by allegations of capriciousness, arbitrariness, discriminatory treatment, and/or are contrary to the class syllabus, may be submitted to the Program Director by the student, in writing, within ten (10) working days from the date of the action or omission involved and after the informal proceedings have been exhausted.

Academic Grievance and Appeal Procedure

Students who do not maintain their grades as per the Satisfactory Academic Progress Policy and who believe they were graded unfairly may submit an Academic Grievance to the Director and the Board.

1. Academic grievances related to an Unsatisfactory Grade of a written assignment shall be attempted to be resolved by the student requesting a meeting directly with the course instructor. If the Grievance is not resolved, then the student will request a meeting with the Student Advisor. If the Student Advisor is the instructor, then a meeting will be scheduled with the Director. This formal meeting will be scheduled within ten (10) days when the Student Advisor or Director will have had time to review all relevant information pertaining to the grievance, as well as to review all applicable Florida Rules and Statutes.
2. If the complaint is not resolved or no agreements can be reached, an arbiter will be chosen from the IICS Board. The arbiter will review the student's work or issue and submit his/her decision within 15 working days from the date of the appointment.
3. If the student wishes to appeal the decision of the arbiter, the student may contact the Commission for Independent Education, Florida Department of Education, 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399-0400, toll-free telephone number (888)224-6684.

As per the Satisfactory Academic Progress Policy, students must earn a minimum of a B on the oral exams to successfully complete the program. If the grievance pertains to the oral exam, the student may submit a formal grievance to the Board members who sat on the IICS Examination Committee. They will review their evaluations of the student's performance and respond within fifteen (15) days. If the grade is not changed but there was disagreement between two members of the IICS examination committee as to the student obtaining a passing grade, the student may be re-examined by another Board member within thirty (30) days. That grade will be final.

Summary Suspensions

A summary suspension is defined as an immediate suspension decision from IICS. The Director may suspend any student for any major violation as defined in this document, when the conduct involved constitutes a threat to the safety and/or welfare of the Program, instructors, guests or other students; is detrimental to the image or best interest of the Program; or for any other reason stated in any institutional documents. The student will be notified either personally or by certified mail of the summary suspension and the basis for said suspension. Summary suspensions are interlocutory measures that are not appealable.

In cases of summary suspensions, the Director will appoint a Quality Assurance Committee (QAC), made up of two additional Board members, within ten (10) working days from the date of notification to the student of the summary suspension, to determine within fifteen (15) working days of the appointment of the QAC, whether the suspension will be maintained or rescinded and for the adjudication of the charges in a formal procedure. Both issues will be consolidated into one formal hearing. All charges and issues will be included in the notification as required for a formal hearing.

The Director will issue a resolution within fifteen (15) working days of the receipt of the report.

Students whose conduct is found to be unprofessional will be expelled from IICS with no further option to appeal or return. Furthermore, as required by F.S. 490 and 491, a report regarding the unprofessional conduct will be made to the student's licensing board.

Probation

A student whose conduct is ethically or professionally questionable will meet with two Board members to discuss said conduct. Those Board members may determine that the student's conduct does not merit suspension or withdrawal and place the student on probation for a specified length of time not to exceed one year. During that time, the student's conduct must be exemplary to avoid expulsion. The Board members will specify the exact nature of the conduct and refer the student to the IICS Code of Ethics.

Administrative Grievances against the Director or an Instructor

Each student who initiates a grievance against IICS or against whom IICS must act has the right to procedural due process.

Grievances are addressed in face-to-face meetings when the complainant chooses to verbalize a problem. If a grievance is presented in writing, the Director will reply in writing and every attempt is made to rectify the issue. If a grievance is unable to be rectified in this manner, another Board member will mediate the issue.

A student may present a grievance against the Director or another instructor for conduct or actions not covered under the Academic Grievances section of this Manual, in the same procedure as an Academic Grievance.

The Director will investigate the grievance. If the grievance is against the Director, another Board member will be appointed to investigate.

1. If the Director determines that the grievance is groundless, the grievance will be dismissed and the student will be informed thereof in writing within twenty (20) working days of date of receipt of grievance.
2. If the Director determines that there are grounds for sexual harassment or discrimination, s/he will notify the parties that the grievance will be investigated by the Board. The Director will send a written notification to the student and the alleged offender of the decision to pursue the grievance as a sexual harassment claim and will schedule a formal hearing.
3. If the Director determines that the alleged offender's conduct was contrary to his/her position as instructor, s/he will present a fact-finding report to the Board for the proper action. This report will not include recommendations. The Board will meet to determine an action, which will include termination of the instructor if the Board agrees with the Director.

Appeal Procedure

If the student wishes to appeal the Board's determination, then s/he may follow the procedure for a **Formal Hearing**.

Formal Hearing

A formal hearing is any meeting between Board members or between Board members and a student and/or instructor, for the purpose of assessing any complaints or grievances, and making a determination as to recommendations for resolution of such complaints or grievances. All formal hearings will be documented with minutes noting the time, place, and attendance of the meeting, as well as, the content of the meeting.

Students who feel a grievance is unresolved may refer their grievance to Florida Department of Education's, Commission for Independent Education, 325 West Gaines Street, Suite 1414, Tallahassee, FL 32399-0400, 850-245-3200 or toll free at 888-224-6684.

Prohibition of Sexual Harassment

Sexual Harassment is defined as: any unwelcome sexual advances, requests for sexual favors or other verbal or physical conduct of a sexual nature which 1) makes submission to or rejection of such conduct either an explicit or implicit basis for employment and/or academic decisions affecting the individual; or 2) unreasonably interferes with the individual's employment or academic performance by creating an intimidating, hostile or offensive environment.

IICS has a strong policy against sexual harassment and any such behavior will not be tolerated. Instructors and staff are prohibited from dating or other sexual relationships with any student. They are prohibited from making quid pro quo offers to students or in any way creating a hostile learning environment. Complaints from students will be made to the Director, who will meet with the instructor or staff member and formulate a corrective action. An instructor or staff member will be subject to termination if it is determined that a student was sexually harassed.

A sexual harassment allegation will be investigated as an Administrative Grievance (see above). Additionally, if the Director or the arbiter determines that the grievance involves issues of sexual harassment or discrimination, a determination as to any interlocutory measures needed and/or whether charges will be filed and pursued against the offending party under the guidelines of the Equal Employment Opportunity Commission (see http://www.eeoc.gov/laws/types/sexual_harassment_guidance.cfm)

Special Conditions and Requirements to Receive Educational Services from IICS

1. In the case of a student who is found to be lacking in any of the following:
 - a) compliance with the academic and professional requirements as per the student's licensing Board and applicable Code of Ethics for that Board's academic and clinical skills; or
 - b) ethical and interpersonal skills and behavior,

The Director will require an evaluation of the student by a professional in human conduct of the student's choice. The student will be placed on a Leave of Absence status until such time as competence to continue academic and clinical studies is determined. If the student is not competent to resume studies within one year of the Leave of Absence, the student will be terminated from the program. If the student wishes to re-apply, evidence will need to be submitted of ability to maintain conduct in an ethical and professional manner. A determination of re-acceptance will be made by the Director and another Board member.

During the Leave of Absence, a report will be submitted to the Director to determine if and when the student will be qualified to continue pursuing studies in the Program. If, from the evaluation, it is learned that the student needs professional help, the student will be required to seek the recommended professional help. It is the student's responsibility to seek the recommended professional help at their own cost or under their medical plan.

The Director reserves the right to make a determination of the student's status, taking into consideration the best interests of the student and the Program's other students. The Director is not bound by the evaluation submitted by the student's choice of professional and will decide based on professional judgment based on all available information.

If the Director determines that the student violated the licensing Code of Ethics, a report will be made to that Licensing Board advising of the violation.

2. IICS has a clear commitment and policy of compliance with all laws and regulations applicable to qualified students challenged by a disability. Once a qualified student officially notifies the Program Director of the existence of a disability, all attempts will be made to reasonably accommodate the student in accordance with Section 504 of the Rehabilitation Act and Americans with Disabilities Act.

3. When a student is medically, mentally and/or emotionally disabled, which renders them not qualified to receive educational services, such students shall apply for a leave of absence. Should the student decide to return to the Program, medical evidence providing support of the student's request will be required prior to re-admission.

4. A student is not qualified to receive educational services from IICS if they pose a direct or imminent threat to the health, safety or welfare of others, or whose conduct (past or present) of which official knowledge has been obtained, is detrimental to the image or best interest of the Program and its constituencies, and may be summarily suspended.

5. If the Director has reasonable basis to believe that the student is a person challenged by a disability, but otherwise qualified to study in the Program, they may request medical or professional evidence about any disability. All reasonable accommodation alternatives available will be provided. If the student is found not to be qualified to pursue studies in the Program, or if the Director determines that no reasonable accommodation can be made, the student will be notified within twenty (20) working days of the date of the decision.

6. Appeals

The student has 10 (ten) working days to present an appeal through the same process described in the Academic Grievance section.

Students' Rights and Responsibilities

Students have the right to:

- All statutory rights – laws passed by Congress, privacy right-information in students' records, and protection from improper disclosures; civil or federal right – right secured under the federal constitution or federal civil right law (freedom of expression, assembly).
- Make their own academic decisions.
- Access adequate academic advising.
- Quality instruction and/or educational experiences.
- Access to the instructor throughout each course.
- Information regarding application procedures.
- Information regarding tuition, fees, refund policies and procedures.
- Information regarding how satisfactory academic progress is determined.

Students have the responsibility to:

- Pay all tuition, fees, and other expenses within the contracted timeframes.
- Comply with the IICS Code of Ethics
- Be aware of the educational objectives of the institution, comprehend the IICS evaluation criteria, and maintain satisfactory academic progress.

- Conduct their academic affairs honestly. Students will not cheat, plagiarize, falsify their academic records, or otherwise misrepresent their work.
- Take appropriate action when informed of grade deficiencies.
- Know their due-process guarantees and understand the appeals procedures.

Students may withdraw from the Institute at any time. Financial obligations in the event of withdrawal are described in the “**Cancellation and Refund Policy.**”

Students may be terminated from the Institute for the following reasons:

- Failure to maintain contracted payment schedule.
- Failure to maintain minimum academic requirements (see “**Grading System**”).
- Non-adherence to any student responsibilities.
- Failure to conduct oneself in a professional and/or ethical manner in any institutional or public venue.

Students will be notified in writing of any changes made at the Institution

Facilities

Description of Institutional Facilities

The physical location of the classroom is 9620 NE 2nd Avenue, Suite 205, Miami Shores, FL 33138. It is in an office building and set up with tables and chairs to accommodate up to 18 students. The facility has three bathrooms.

The administrative facility office is at 9620 NE 2nd Ave. Suite 207, Miami Shores, Florida 33138. The administrative assistant works from there and all class preparation and resource materials are there. It is also used as the mailing address. Suite 205 is the business address on the corporation articles.

Library

At time of enrollment all students will be given a membership to Library Information Resource Network (LIRN.net). Students will have off campus access to millions of journals, magazines, newspaper articles, e-books, podcasts, audio, video resources, and a librarian to support their academic studies. A full time librarian is available via email.

Online Delivery Explanation

Pursuant to Rule 6E-2.0041, F.A.C. Delivery of Programs through Nontraditional Assessments, Modes and Methods.

The following relates to online delivery:

Student orientation:

Upon registration, all students are provided with a Student Application and Enrollment Agreement, which constitute a contract between the student and IICS. Upon signing and acceptance of the contract, students will be provided with instructions for attending classes via the Zoom platform accessing electronic copies of all materials used in class. Students will need to create a school Gmail email address to be used to access to the Google Drive folders which contain video recordings of all classes, the

curriculum for each class, and the handouts for each class. Students' Activity Logs containing the classes they have attended, payments, and balance information are updated regularly and are accessible in their personal Student folder on Google Drive. Students will also access and complete online evaluations for each completed content area. The program catalog is online and accessible to all students.

Acceptance of transfer credits or credit by examination validation:

Students may submit all documentation by uploading it to the IICS website or sharing it via Google Drive to IICSPHD@gmail.com. All documents submitted in this way will be delivered via email and sent to a dedicated storage website.

Additional disclosures (criminal background check, licensure exams, language offered, medical exams/physical requirements, etc.):

Any additional documentation may be shared via Google Drive.

The distribution of materials:

Materials for each class are stored on Google Drive and are accessible with a Gmail email address to which will be sent sharing permissions.

Examination and evaluation of student work:

The Zoom platform allows multiple users to interact. Students will be able to sit with examiners in real-time. Students will be evaluated throughout the program during the supervision/case consultation sessions. Case studies and research may be uploaded to Google Drive. The oral exams will be administered in person or via a live webinar.

Timely response to students' questions and comments:

Students may ask questions and make comments during class and during supervision/case consultation. They may also email the instructors and a response will be given within 24 hours. Students are provided with instructors' phone numbers and may call or text at any time.

Attendance and record keeping:

The Administrative Assistant (Admin) maintains all student records, which are submitted electronically. Each instructor logs the attendees for each class and provides it to the Admin at the end of the class. The Zoom video recording of the class also has the names of the online students, including the number of minutes they attend. The video recording of each class is maintained on Google Drive for three years.

Internships/Externships/Labs:

Students participate in supervision/case consultation with cases in their specialty area. They meet with their consultant via Zoom, which is a secure, HIPAA-compliant platform.

How transcripts are maintained by school/obtained by students:

The Admin maintains all records both electronically and in a locked filing cabinet in the school. Electronic storage is via a cloud service and may be accessed by the Admin and Director from their respective computers. All records are password-protected.

Technical support:

The program has a website manager who maintains the website and is available to students when needed. Zoom tech support is very responsive and is available 24/7 if a student needs help during a class. Prior to beginning the program, an instructor and a new student will do a test session to familiarize

the student with how the platform works and confirm that the student has a good internet connection and adequate audio-visual equipment.

Equipment and supplies used/needed (i.e. operating system):

The IICS program uses a laptop with an external webcam, microphone, and speakers. The Zoom platform allows the instructor to share the computer desktop so the students may view all powerpoint presentations, documents, and videos as they are simultaneously shown in class. The laptop has a Windows 10 operating system and accesses a high-speed internet connection. All classes are offered simultaneously online via Zoom and in person. The equipment is permanently set up in the Miami Shores classroom. All Instructors are instructed on how to access the meeting link, record the classes, share the screen for presentations and videos, and chat with online students. All Instructors are trained prior to teaching on their own. If there are any problems with the technology, Zoom technical support and the Director or IICS Administration will be available.

Students have a variety of options for accessing their classes online, including a desktop computer, laptop, tablet, or smartphone. They need a current operating system on their device, a webcam and a microphone. Larger screens provide easier visibility for viewing the presentations but are not essential as all students have access to the materials and to the class recordings independently. It is recommended that students use a headset with a microphone for optimal audio quality. Students may either speak their questions or comments or write them using the chat option.

Group study (if applicable):

Groups meet weekly following class for supervision/case consultation. They may collaborate with other students on their own. They may coordinate a Zoom meeting with an Instructor.

The Zoom webinar platform:

Zoom is an online collaboration, communication and sharing tool used for Web-based meetings, events and classes. Each student will be emailed an invitation to join a scheduled class. Upon opening the email, they will click on the link. Clicking the “invite” button will launch the meeting. Each class has a dedicated password good for that meeting only. The email link will automatically enter the meeting number and password. Students can see the instructor, videos, slideshows and other attendees by clicking “participants.” The instructor can see the students, their chats, and hear them when they unmute their microphones. Below are the minimum system requirements needed by the students.

Computer Requirements

System Requirements For PC, Mac, And Linux from (<https://support.zoom.us/hc/en-us/articles/201362023-System-Requirements-for-PC-Mac-and-Linux>)

 - An HD cam or HD camcorder with a video-capture card
- Note:** See the list of supported devices.
https://support.zoom.com/hc/en/article?id=zm_kb&sysparm_article=KB0064819
- Virtual camera software for use with broadcasting software like OBS or IP cameras

Supported Operating Systems

- macOS X with macOS X (10.11) or later
- Red Hat Enterprise Linux 8.0 or higher

- Windows 11
- Windows 10
 - Note:** Devices running Windows 10 must run Windows 10 Home, Pro, or Enterprise. S Mode is not supported.
- Ubuntu 12.04 or higher
- Mint 17.1 or higher
- Oracle Linux 8.0 or higher
- CentOS 8 or higher
- Fedora 21 or higher
- OpenSUSE 13.2 or higher
- ArchLinux (64-bit only)

Note: On Windows devices, Zoom utilizes WebView2 and Chromium Embedded Framework (CEF) for certain features. If not available, these are downloaded automatically by Zoom, but admins should ensure these are whitelisted on managed devices.

Supported Tablet and Mobile Devices

- Surface PRO 2 running Win 8.1 or higher
- Tablet PCs running Windows 10 must run Windows 10 Home, Pro, or Enterprise. S Mode is not supported.
- Tablet PCs only support the desktop client.

Supported Browsers

Desktop

- Chrome: Within 2 versions of current version
- Firefox: Within 2 versions of current version
- Edge: Within 2 versions of current version
- Safari: Within 2 versions of current version

Mobile

- Safari: Within 2 versions of current version
- Chrome: Within 2 versions of current version
- Firefox: Within 2 versions of current version

Processor and RAM Requirements

	Minimum	Recommended
Processor	Single Core 1Ghz or Higher	Dual Core 2Ghz or Higher (i3/i5/i7 or AMD equivalent)
RAM	N/A	4Gb

Note: Linux requires a processor or graphics card that can support OpenGL 2.0 or higher

High DPI Support

- Zoom desktop client for Windows, macOS, or Linux: [Global minimum version](#) or higher

Bandwidth Requirements

The bandwidth used by Zoom will be optimized for the best experience based on the participants' network. It will automatically adjust for 3G/4/5G, Wi-Fi or Wired networks.

Recommended bandwidth for Meetings and Webinar Panelists:

- For 1:1 video calling: 600kbps (up/down)
 - For high-quality video: 1.0 Mbps/600kbps (up/down)
 - For 720p HD video: 2.6Mbps/1.8Mbps (up/down)
 - For 1080p HD video: 3.8Mbps/3.0Mbps (up/down)
 - For gallery view receiving: 2.0Mbps (25 views), 4.0Mbps (49 views)
- For screen sharing only (no video thumbnail): 50-75kbps

- For screen sharing with video thumbnail: 50-150kbps
- For audio VoiP: 60-80kbps
- For Zoom Phone: 60-100kbps

Recommended bandwidth for webinar attendees:

- For panelists video on:
 - ~600kbps (down) for high-quality video
 - ~1.2-1.8Mbps (down) for 720p HD video
 - ~2-3Mbps (down) for 1080p HD video
- For screen sharing only (no video thumbnail): 50-75kbps (down)
- For screen sharing with video thumbnail: 50-150kbps (down)
- For audio VoiP: 60-80kbps (down)

- [Startech Composite/SVideo to USB](#) (Win)
- [Blackmagic Design Intensity Extreme](#) (Mac)

Degree

Students who successfully complete all three sections of the Program will be awarded a Doctor of Philosophy (PhD) degree in Clinical Sexology.

IICS is licensed by the Commission for Independent Education, Florida Department of Education, to offer a PhD degree. Additional Information regarding the International Institute of Clinical Sexology may be obtained by contacting the Commission for Independent Education, Department of Education, 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399-0400, toll-free telephone number (888) 224-6684

Holiday Dates

All national holidays in the United States are recognized and no classes will be held on those days. All religious holidays are respected, regardless of the religion. Should a student have a conflict between a non-national holiday (religious or national holiday from the native country) and class or campus schedule, contact the administration or appropriate faculty member for assistance in scheduling.

2024-2025

Quarter Breaks

12-20-25 through 1-23-26

4-4-26 through 4-18-26

8-29-26 through 9-13-26

12-19-26 through 1-16-27

Holiday Weekends

President's Day 2-16-26

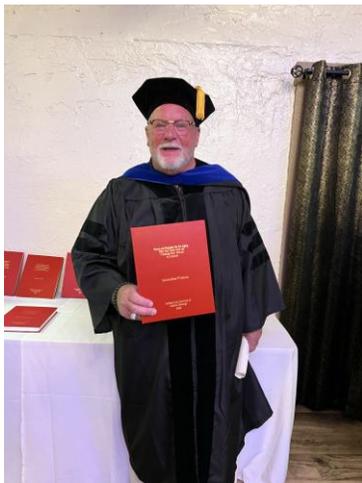

Memorial Day 5-25-26

Independence Day 7-4-26

Indigenous People's Day 10-12-26

Veteran's Day 11-11-26

Thanksgiving Day 11-26-26

IICS Flow Chart

Flow Chart of Academic Progression from Admission to Graduation

Note: Each step must be completed before moving to the next

Admission

To begin classes,

Return all admissions requirements:

2 letters of recommendation and an Official Transcript

Pay \$600 Registration Fee

Complete 30 core classes / 6 electives, 10 paired & 15 group supervisions, Specialty, any Homework, and Evaluations

Written Exam

(must get a 95% or Higher)

Board Certification Certificate Awarded

Submit a Case Study for approval before scheduling the oral exam

Oral Exam

Dissertation Process

Letter of Intent

Choose a dissertation topic and submit a Dissertation Letter of Intent (LOI) to the Research Director for approval

The Dean of Students assigns a Dissertation Chair

- Student and Chair meet to review dissertation process and assignment due dates
- Recruit TWO committee members with PhD or equivalent degrees
- Submit their signed committee member forms and CVs for approval
- After approval, send committee members thank you letters that include a list of their duties

Complete dissertation proposal (Chapters 1-3)

With the chair and committee members' input

Committee members sign the Proposal Approval form

Schedule Dissertation Proposal Review

After review, Make changes suggested by the proposal review committee
Inform the committee of changes

Submit Institutional Review Board (IRB) Application

- Receive IRB approval
- Following IRB approval, recruit participants, collect signed Informed Consent documents
- Begin collecting data

Keep collected data in a secure location for 5 years. If your state requires a different length of time, inform your chair that you will be using those guidelines.

Complete Dissertation

Write the remaining dissertation chapters
Submit completed dissertation draft to the committee for approval

Dissertation Oral Defense

Submission of Final Bound Dissertation

Graduation

Notes:

IICS provides Continuing Education under Dr. Carol L. Clark, Florida Department of Health Provider #50-550/BAP585, and offers Continuing Education Units for the Florida Board of Nursing, exp. 10/27; Florida Board of Clinical Social Work, Marriage and Family Therapy, and Mental Health Counseling exp. 03/27; and the Florida Board of Psychology, exp. 05/26; Dr. Carol Clark is an approved provider for the American Association of Sexuality Educators, Counselors, and Therapists (AASECT) #11-112B. CE Credits may be applied toward AASECT certification and renewal of certification. The Addictions Therapy Training Institute, owned and operated by Dr. Carol Clark, is approved by the Florida Certification Association, #5094-A **NBCC**. Dr. Carol L. Clark, DBA Therapy Certification Training has been approved by NBCC as an Approved Continuing Education Provider, ACEP No. 6856. Programs that do not qualify for NBCC credit are clearly identified. Dr. Carol L. Clark, DBA Therapy Certification Training is solely responsible for all aspects of the programs.
